Chapter- 01

POLICE ORGANIZATION

Punjab stands as Pakistan's most populous province, boasting the largest police force in the nation, comprising 218,913 personnel. The Punjab Police is led by the Provincial Police Officer/Inspector General of Police (IGP) based in the provincial capital, Lahore. Operating under the PPO, there is one CCPO, Lahore and nine Regional Police Officers overseeing areas including Gujranwala, Faisalabad, Multan, Rawalpindi, Sargodha, Bahawalpur, DG Khan, Sheikhpura, and Sahiwal, with each region further divided into districts led by District Police Officers. Additionally, various specialized units, such as Investigation, Special Branch, Counter Terrorism Department (CTD), Punjab Constabulary, Punjab Elite Police Force, PPIC3, Tele & Transport, Traffic Punjab, Punjab Highway Patrol (PHP), and Special Protection Unit (SPU), operate under the Central Police Office, Punjab.

The Central Police Office, located in Lahore, serves as the primary headquarters of the Punjab Police, housing several functional branches including Executive, Operations, Establishment, Training, Finance & Welfare, Development, Logistics & Procurement, Internal Accountability, Research & Development, Legislative Business, Legal Affairs Division, Information Technology, and Punjab Police Sports Board.

Guided by the Police Order 2002 and Police Rules of 1934, the Provincial Police Officer/IGP also holds the role of ex-officio secretary to the Government of Punjab, wielding administrative and financial powers akin to those of the Provincial Government's Secretary. However, operational, administrative, and financial decisions are made autonomously, subject to policy guidance from the Chief Minister, Punjab.

The Punjab Police faces multifaceted challenges including rising population, economic disparities, unemployment, terrorism, and social instability, which significantly impact the crime landscape. As such, its primary objectives include maintaining law and order, preventing and investigating crime—particularly terrorism, suicide bombings, and sectarian violence—to safeguard the lives, property, dignity, and freedoms of citizens. Upholding principles of justice,

equality, integrity, fairness, and human rights, the Punjab Police aligns its enforcement practices with international standards and best practices.

The Punjab Police's Integrated Command & Control Communication Centre (PPIC3) project leverages smart technology to enhance public security, while initiatives like the Punjab Safe City Authority's SMS notifications for e-challan defaulters have led to notable improvements in compliance and revenue collection. Furthermore, technological advancements, such as the fingerprint bureau under the Investigation Branch, bolster the force's investigative capabilities.

Despite serving a population exceeding 110 million, the Punjab Police remains understaffed, with one officer responsible for approximately 560 citizens. Consequently, the force diligently operates within limited resources to combat rising crime rates exacerbated by population growth. Addressing this challenge necessitates augmenting police personnel to effectively meet the safety needs of Punjab's residents.

The branch deals with the punishments/ appeals/ revision petitions of Constables/ Head Constables under the relevant rules (Punjab Police (E&D) Rules, 1975). The appellants/ petitioners are called in the orderly room, which is being held once/twice in a week and nearly 60 to 80 appeals/revision petitions are being decided on weekly basis. The branch has decided approximately 780 appeals/revision petitions from 01.07.2021 to 30.05.2022.

Writ Petitions in the Hon'ble High Court

The Branch deals with the writ petitions of Constables/Head Constables & candidates who were rejected during the recruitment filed before the Hon'ble High Court. The branch has dealt nearly 278 writ petitions from 01.07.2021 to 30.05.2022.

Service appeals in the Punjab Service Tribunal

The Branch deals with the appeals of Constables/Head Constables who file their appeals against departmental order. The branch has dealt nearly 386 appeals from 01.07.2021 to 30.05.2022.

Promotion to the rank of Constables/Head Constables

Monitoring of promotion of Head Constable and Constables (HCs/Cs) under Standing Order No.08/2001.

Main Achievements

1. **Recruitment Made** (Constables, Security Constable, Driver Constable & Wireless Operator in District Police, Tele, SPU & PHP). The Branch deals with the recruitment of Constables, Lady Constables, Driver Constable, Wireless Operator, Security Constables, Traffic Assistants, Senior Station Assistants & Police Station Assistants alongwith Writ Petitions relating to recruitment. Recruitment against 11494 vacant posts of Constables, Security Constable, Driver Constable & Wireless

Operator in District Police, Tele, SPU & PHP is under process and likely to be completed in June 2022.

2. **Empowerment** of Heads of Districts / Units for recruitment on shaheed/family claim basis: Previously, the cases for recruitment on Shaheed/Family Claim Basis were being done on half yearly basis (March & October) through the Recruitment Board at provincial level. This mechanism was not appropriately addressing grievances of the affected families resulting complaints and portraying adverse image of the department. In order to ease out the legal heirs of the Shaheed/deceased/retired employees of the department Standing Order No.06 of 2021 has been issued whereby Heads of Districts/Units have been empowered to finalize recruitment on such claim at their end, within the time lines of one month from date of receipt of application. The whole process is being monitored at CPO level by Establishment-III Branch. 400 officials have been recruitment on Shaheed/Family Claim Basis.

Future planning/ priorities

- i. Permission for recruitment on 784 vacant posts of Traffic Assistants is available. After completion of ongoing recruitments, recruitment process of Traffic Assistants will be initiated.
- ii. Approximate annual turn-over in the rank of Constable is 6500 posts. Therefore, a summary has been moved for approval of the Chief Minister, Punjab for relaxation of ban on recruitment on permanent basis in Punjab Police. After approval, recruitment will be initiated accordingly.
- iii. Another summary has also been moved for approval of the Chief Minister, Punjab for relaxation of ban on recruitment on 5254 vacant posts in the rank of Constables. After approval, said recruitment will be initiated accordingly.
- iv. Standing Order for Mounted Police; Traditionally the Mounted Police remained integral part of every Police establishment. Police Rule 1934, elaborated the requirement of Mounted Police in Chapter-VII. All Gazetted Police Officers and Upper Subordinates except ASI are mounted officers and they are required to maintain a standard of efficiency in horsemanship. However, with the passage of time and rapid urbanization the functions of Mounted Police have been replaced by advanced modes of transportation and communications. Thus, the role of Mounted Police is reduced to operational use in the funnel area or riverine/hilly terrain or for training/ceremonial duties. Hence, for optimal

utilization, mounted police warrants a new role. The IGP has approved re-organization of Mounted Police. In the Standing Order following areas have been discussed and re-organized:

- a. Filling of Vacancies/Recruitment
- b. Eligibility Criteria for Recruitment as Mounted Police Constable
- c. Sanctioned Strength of Manpower and Distribution of Mounts
- d. Purchase of Mounts
- e. Training of Mounted Police
- f. Seniority of Mounted Police
- g. Promotion
- h. Transfer/Posting
- i. Feeding of Horses
- j. Use of Mounted Police
- k. Examination of Mounts
- l. Branding of Mounts
- m. This Standing Order will be issued after completion of civil work.

PROCUREMENT BRANCH**Introduction**

Police Department needs multiple logistics items/equipment to perform their duties in field and offices in all over the province. These items included Uniform & Protective Clothing, Plant & Machinery, Ordnance Stores, Tear Gas Equipment, Transport etc. The Procurement Branch, CPO is deals with Central Procurement of Punjab Police and its formations i.e CTD, Dolphin, SPU, EPF, PHP, Traffic etc.

Procurement process starts every year after the approval of procurement plan by the W/IGP. AIG/Logistics, SSP/MT & SSP/Tele furnish indents/demands for the purchase of different items. Purchase Cell materializes the procurements for Punjab Police keeping in view the principles of procurement i.e fairness, transparency, value for money, efficiency and economy. Advertisements/Tenders are published in newspapers as well as on website of PPRA and Punjab Police. In case of procurement more than 100 million, the process of pre-qualification of firms is initiated to shortlist sound firms having maximum capability to complete important purchase items.

To complete the procurement process, different Committees are constituted as per the spirit of Punjab Procurement Rules 2014 i.e Purchase Committee, Technical Committee, Pre-qualification Committee, Test & Trial Committee, Grievance Redressal Committee, Arbitration Committee. These Committees are supervised by Senior Officers of Punjab Police to ensure fairness, transparency, value for money, efficiency and economy

Achievements

On the basis of approved annual procurement plan, tenders were floated in newspapers/websites to materialize procurement in accordance with PPR Rules 2014. Purchase Cell finalized all contracts made for the purchase of various items. The demands for the procurement of different items/indents received from AIG Logistics, SSP/MT, SSP/Tele were completed well in time. The important procurement of Uniform items, Armoured Security Vehicle, Tear Gas Equipment and mega transport items were materialized after hectic efforts, during the financial year 2022-23. Chapter 10

THE LEGAL AFFAIRS DIVISION

Introduction:

1. Legal branch of Police is contributing its share for more than 10 decades. Law is the essential base and foundation on which the structure of the state is erected. In fact, law is an integral and significant component for enforcement activity of any police organization. It has its origin since enforcement of Police Act, 1861 and Police Rules of 1934 made under the Act.
2. The Legal branch became part and parcel of Police organization at the District, Range and the Central Police Office (CPO) level, discharging its advisory, representational and record management functions in the light of relevant Rules. Since decades legal branch (Now Legal Affairs Division) is intelligently and diligently assisting the operational field officers to enforce law, conduct Investigation and represent them in all courts.
3. Legal branch is also discharging multifarious legal duties, such as (i) preparation of police briefs for the District Attorneys, (ii) legal documents for presentation of police organization before various judicial forums in the form of petitions, (iii) suits and other service matters besides the maintenance of record and registers (on production of accused, witnesses and convictions in the Districts). It also provides legal guidance as and when required by the police officers at all levels.
4. In the year 2006 through a summary creation of Legal Affairs Division by re-structuring of Legal Branch in the light of Article 8(2)(q) of the Police Order, 2002 was made. The 2002 Order visualizes organization of Police on functional basis that, inter alia, includes "Legal Affairs". In this age of specialization, complex legal issues which are being faced by the police officers every day especially at no legal background and little knowledge of law, the police functionaries need to have assistance of legal experts in discharge of their duties. Every police action is scrutinized by the judiciary either by exercising the powers of judicial review of plenary powers under Criminal Procedure Code."
5. The emphasis of the creation of "Punjab Police Legal Affairs Division" was for better productivity, promotion of efficiency in the interest of the department and to implement the Police Order, 2002, in letter and spirit.
6. The volume of litigation has distinctly increased with the passage of time in shape of Writ Petitions, Service Appeals, Civil Suits, Red Notices, Extradition of accused, Transfer of case properties/accused, judicial inquiries, legal guidance etc. which is a hard fact whereas the shortage of resources and

the officers as well as allied staff provided to the Legal Affairs Division at all levels i.e. CPO, Region and District are not adequate. Even, the strength as sanctioned in 2006 by the Govt. was never provided to this Division which is still continued rather it has declined a lot.

Structure of the Legal Affairs Division at the CPO:

Cases relating to Superior Courts:

The great responsibilities of the Legal Affairs Division are that to vet / prepare comments, reports, etc. to be filed / submitted before the superior judiciary such as the Apex Court and the Hon'ble High Court including its benches.

The Punjab Police Legal Affairs Division is also responsible to refer the matters for sanction and filing of Civil Petition for Leave to Appeals (CPLAs) / Review Petitions (RPs) and other references before the superior judiciary against the

judicial orders and judgments received from the Regions, Districts and other Units of the Punjab Police.

A number of cases are processed for sanction and filing of CPLs etc every year. This is also one of the most important duties of the Legal Affairs Division to file comments and reports in the Apex Court in Human Rights cases, Suo Moto Cases and Concise Statements are being submitted in the Apex Court in CPLAs / CAs on priority basis as and when required by the Apex Court.

Presently there are 843 cases pending in the Apex Court. The details of cases dealt with in the Hon'ble Supreme Court of Pakistan and the Ombudsman, Punjab are mentioned below:

Year	Number of HRC + Misc. Complaints	Supreme Court Cases /CPLAs	Ombudsman Cases
2020	50	245	05
2021	57	601	04
2022	47	703	11
FY 2022-23	67	843	32
Total	221	2392	52

SP/DSsP/Legal of Regions are Focal Persons of IGP, Punjab to monitor and represent senior officers in the Hon'ble Supreme Court of Pakistan and provide prompt information in important cases to the DIG/Legal, both AIsG through Whatsapp and brief them accordingly.

High Courts:

The cases are fixed before the Hon'ble High Courts on daily basis, and two DSsP/Legal-LHC and four Inspectors Legal, are representing Police Department. The learned law officers usually direct that the departmental representative must not be below BPS-17 i.e. DSP Legal to appear before the Hon'ble High Court. Approximately 12 to 18 cases are fixed before the different Hon'ble Judges of the High Court on daily basis.

The year-wise including the current one detail of cases is given below:

Year	Number of Writ Petitions Received from the Hon'ble Courts
2020	1256
2021	1332
2022	1241
F.Y 2022-23	1523
Total	5352

Cases before the Punjab Service Tribunal:

The Punjab Service Tribunal is the judicial Tribunal / forum where the police officers / employees file appeals against the orders of the departmental appellate authorities. Sometimes the officers/employees file appeals against the orders of the IGP or other competent authorities before learned PST to claim promotions. The Legal Affairs Division defends such cases before this important forum, which in fact is the next higher authority of the departmental authorities. The learned PST after hearing both the parties passes the judgment/order. If the judgment is against the department, then it is critically examined by the respective District, Region and concerned Unit before referring the same to the Legal Affairs Division for availing of further remedy by way of petition for leave to appeal in the Hon'ble Apex Court. Accordingly, Legal Affairs Division forwards the requests for appeals to the Home Department and Solicitor's Punjab Office. The following table reflects the quantum of work with respect to PST.

Year	Number of Appeals Filed Before the PST
2020	1161
2021	1068
2022	1371
F.Y 2022-23	606
Total	4206

More than 966 appeals are pending decision in the learned Punjab Service Tribunal (PST) and average 20 to 30 appeals are fixed for hearing on daily basis. Due to shortage of law officers in Legal Affairs Division this is very difficult for Department to defend effectively before the PST on daily basis. DSP Legal-PST must be posted, however, presently, a DSP /Legal is looking after the affairs of PST Cases, establishing liaison with all Branches of CPO securing replies / comments for submission of the same in the learned PST on the fixed dates under the supervision of AIG/Legal. 02 IsP/Legal are put in place to assist and attend the learned Tribunal to represent this office. Responsibility of production of relevant record lies with the concerned District, Region, Unit and Branch. Of course due to shortage of law officers the efficiency may be hampered in the effective defense of the cause of the department before the learned PST.

Courts of sessions and lower courts:

The criminal courts call the investigators with police investigation record and material evidence. Learned Sessions Courts and Subordinate Criminal Courts pass certain directions to the police department. In response, the Legal Affairs Division after examining the same purports advice to implement the orders of criminal courts. Sometimes criminal courts pass direction to the police

department to take legal as well as departmental action against delinquent police officers / official. In this connection the Legal Affairs Division imparts advice to the concerned authority to take legal action against the delinquent police officials to be dealt in accordance with law.

Civil Courts:

Civil suits are filed against the police department in Civil Courts. In many civil suits comments and reports are received from Districts and Regions which are vetted by the Division. Written statements are signed by Legal Affairs Division through AIsG / DIG Legal and file before the Civil Courts through learned District Attorney. Legal Affairs Division is not only representing IGP but also appear on behalf of other senior police officers. The following table lists the number of cases pursuing in the learned court.

Introduction of Police Legal Affairs Monitoring System:

In order to ensure prompt response and timely submission of replies, compliance reports in the Hon'ble Courts, Police Legal Affairs Monitoring System has been working with the able assistance of PITB and it has been enhanced to all the Regions and Districts. An I.T LAB has also been established for

feeding, updating and monitoring of status of cases on daily basis, even the litigation workload of the regions and districts can also be monitored through this system.

Challenges:

The Division is facing multiple challenges for its proper functioning at this moment. They come from a host of factors: the work culture, quantum of work, inadequate capacity and limited resources. The issues of organization and communication are equally important.

Quantum of Work and Limited Sources:

There is no match between the quantum of work, the Division has on its table and the resources available to it. The quality of work is suffering simply because of non-availability of adequate capacity. A proper representation is impossible to achieve without enhancing the capacity of the Division by increasing the numbers of the gazette legal officers at the CPO. The references received in this office

YEAR	2020	2021	2022	F.Y. 2022-23
TOTAL REFERENCES IN ALL HEADS	27,056	31,271	29,215	34411

Work Culture:

Legal Affairs Division, despite huge significance of its work, has received lesser attention in items of organization and capacity building than the operational policing. This is evinced by the fact that it has adopted a general attitude of compliance of the judicial orders without debating their merits.

Working/Office Space:

The staff of the Division, already short in strength, is also facing an acute shortage in terms of office space and work stations. Office space and equipment being the most basic paraphernalia for any serious work has become a challenge in the wake of tremendous increase in workload. At least one full floor in main CPO Complex is required for offices and record. As alternate, complete Tariq Shaheed Block is required for smooth functioning.

Access to Legal Literature/Case Laws:

Keeping in view the necessity of access to the latest judgments and case laws the Legal Affairs Division was linked with Pakistan law site and Asia law site to get online access to the latest as well as other reported cases expiring in August 2022.

Immediate steps needed to be taken to strengthen Punjab Police legal affairs division:

- There is a dire need to enhance the capacity of officers of Legal Affairs Division besides strengthening the Division by filling the vacant posts especially the Inspectors Legal and DSsP Legal as the existing strength is unable to cope with the present work load throughout the Punjab Province and it is anticipated that if the vacancies are not fulfilled in near future, the smooth functioning of the Legal Affairs Division will seriously be hampered.
- Shortage of Legal Officers at all levels may be fulfilled to meet the requirements.
- Presently Legal Branch is scattered – one full floor in CPO Complex or complete Tariq Shaheed Block including existing space / rooms for record keeping of the Legal Affairs Branch may be provided.
- Construction of work stations in the offices for smooth functioning--- hanging without justification.
- An indent for recruitment of 367 IPs Legal has been sent to PPSC, --- examination is awaited.
- A case for Regularization of 26-Inspectors Legal (out of 75 IPs Legal) appointed on contract basis is under consideration with PPSC which has not yet been finalized.
- Meanwhile, Law graduates from all the districts may be identified and posted against the vacant posts of IPs/Legal CPO, Regions, Districts and Units.
- Sanction for permanent allocation of budget for Legal Affairs Branch with separate DDO Code for expenditures incurring for functioning of Legal Branch, Punjab is required on urgent basis.
- Purchase of latest Law Books, monthly Law Journals as well as annual fee for online access of law sites i.e. Pakistan law site and Asia law site on the expiry of the tenure of one year in August, 2022.
- Presently one AIG/Legal and AIG Legal-II/HRC are looking after the whole affairs of Legal Branch – which is insufficient ----This needs to be enhanced and two more posts in Legal Affairs Division are to be created for smooth functioning and sharing responsibilities.
- At least 02 more SsP/Legal, 4 DSsP/Legal and 24 IsP/Legal are proposed to be posted to meet the requirements and smooth functioning,
- All financial and administrative matters of Legal Branch may be governed/ controlled by DIG/Legal, Punjab.
- Transfer / Posting of SsP/Legal, DSsP/Legal and IP/Legal throughout Punjab may be made in consultation with DIG/Legal, Punjab.

- Keeping in view the shortage of SsP/DSsP Legal at CPO and other district/units, SsP/Legal and DSsP/Legal posted out of cadre posts may immediately be transferred and posted in the regions / districts / units to deal with the legal issues of the region / districts etc.
- Special Incentive (Non-Practicing Allowance) for all officers of Legal Affairs Branch is recommended (one month running basic pay) as are given to all the Law Graduates of Punjab Public Prosecution Department, District Attorneys etc.
- Share of seats/vacancies of SP/Legal in Punjab is required to be increased keeping in view the requirements of CPO, Regions and Training Directorate/Institutions / units etc.
- Re-allocation/adjustment of seats of DSsP and IPs/Legal are required to be done on priority basis in consultation with DIG/Legal, Punjab / AIsG/Legal, so that in all units of Punjab Police where no post of SP/Legal, DSP/Legal or Inspector Legal are available, at least one post of DSP/Legal and 02-posts of IsP/Legal may be sanctioned/re-allocated created to deal the legal matters.
- Accommodation facilities for SsP/Legal, DSsP/IsP/Legal having home district other than Lahore district if posted in Legal Affairs, CPO Punjab, Lahore.
- Utilizing experience of senior legal officers for revamping of legal branch Punjab.
- Follow up of implementation of court directions, maintain of data in Punjab Police Legal Affairs Monitoring System (PLAMS).
- Transportation facility for all the officers of Legal Affairs Division through SSP/M.T, Punjab (Motorcycles) to the Inspectors/Legal posted in CPO and other allied staff. Moreover, two vehicles with drivers may be put in pool of Legal Affairs Branch for important assignments and movement of the officers.

Achievements

1. The aforementioned references received from regions / districts were timely sent to different Govt. departments for appropriate actions required under the relevant protocol.
2. Human Rights Cell, CPO succeeded in getting proper representation in Apex Court in each case through its focal persons throughout Punjab Province and a number of cases were disposed of by Apex Court.
3. The Lahore High Court section ensured proper representation in the Hon'ble Lahore High Court, Lahore and its benches at Rawalpindi, Multan & Bahawalpur and a total 980 cases were disposed of including successful disposal of 82 Criminal Original.

Legislative Reforms

Chapter 11

INFORMATION TECHNOLOGY BRANCH

Information technology is recognized as a vibrant tool for efficient governance, augmented economic growth and human resource management in all over the world. Bringing efficiencies in back-office operations and effective public service delivery are part of government's business vision of providing hassle-free services to the citizens and maintaining law and order through the use of modern technology. Punjab Police has established integrated automated systems and mobile Apps through implementing the technology solutions across province, to maintain police records more heedfully, enhance the investigation & policing efficiency, improve the public-police relation and maintain the law and order proactively.

The traditional record keeping of police station, Criminals Database and other operational and administrative activities were quite tedious and time consuming in the traditional policing. There were also issues of considerable data duplication and common data entry errors making it inconsistent and unreliable. Furthermore, the data was stored locally and hence was not readily accessible from other place by higher authorities when required. In addition to this, the retrieval of the information was slow and tiresome task to perform. The security of data was also a concern as it was placed in cabinets with minimal security access parameters. There was a dire need to automate the traditional policing system which formally kicked off this project in January 2015 and to date we are working to improve and upgrade the systems according to the instructions of senior police officials under the supervision of DIG Information Technology, Punjab.

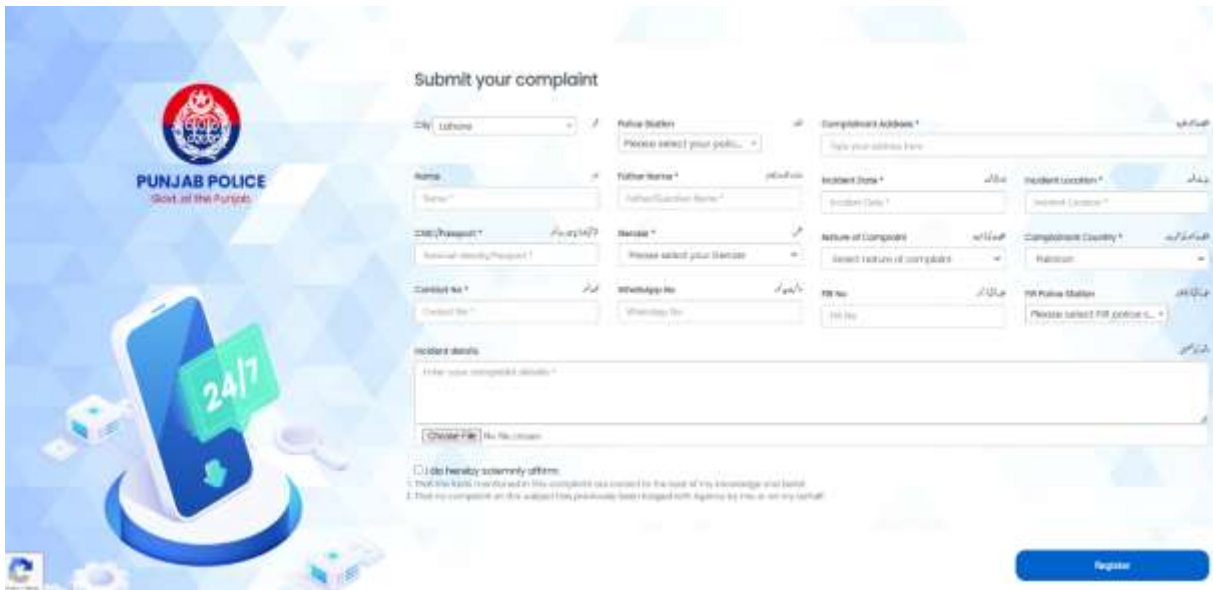

To date the collaboration of policing and software systems has overall been a great success as so many administrative and routine tasks are just completed in minutes that used to take days. Below is the holistic view of initiatives by IT Division, CPO during the year 2022-2023 with reference to their functionality and usage.

Initiatives of IT Division during the Year 2022-2023

CMS Online

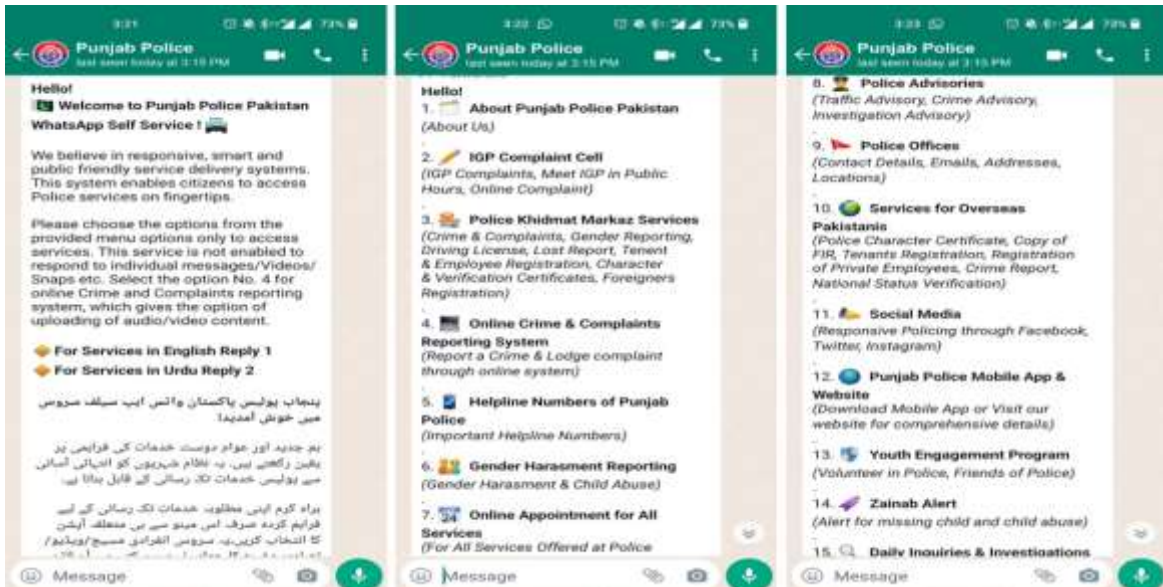

Punjab Police Complaint Management System - CMS Online is an efficient and accessible online platform allowing individuals to effortlessly register their grievances with the police, eliminating the need for physical visits to police

stations. Now, citizens can conveniently voice their complaints and seek prompt resolution from the comfort of their homes.

WhatsApp autoreply Service

WhatsApp Autoreply Service by Punjab Police, a convenient and informative platform that enables the public to access comprehensive details about all the services offered by the police, along with their respective procedures, providing essential assistance at the touch of a button. Now, public can stay informed and empowered with this user-friendly solution, available 24/7 for easy access to vital police-related information.

Online PER System

Enhanced accountability and efficiency with the Online Performance Evaluation System for Punjab Police, enabling a thorough evaluation of all police personnel

based on their good and bad entries in their profiles throughout their service, fostering a culture of continuous improvement and excellence.

Personnel Mobile App

Punjab Police Personnel Mobile Application provides a seamless experience for officers to view / manage their profiles, apply for leaves, request profile updates, and access welfare fund services, and many other services, all in one place, simplifying administrative processes for optimal productivity.

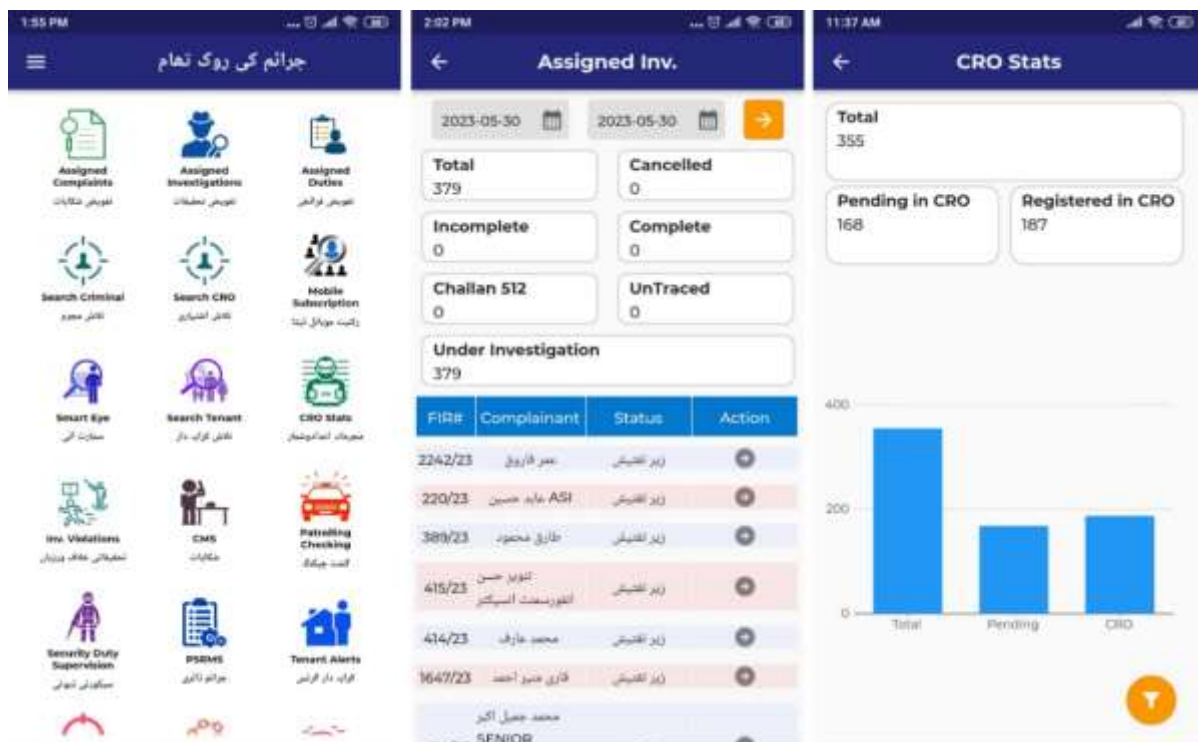

Public Mobile App

The Punjab Police Complaint and Services Mobile Application is a user-friendly platform empowering the public to register complaints with ease, while also providing access to a wide range of services, including Khidmat Markaz facilities, traffic services, protection for vulnerable groups, criminal and stolen vehicle identification, fostering a safer and more connected community.

Crime Prevention App

Crime Prevention Mobile Application offers on field police officers with seamless access to assigned duties and investigations, along with an integrated ePolice Post module for efficient criminal and stolen vehicle identification. Further, this solution is also equipped with dedicated sections for raids, criminal tagging, and IO (Investigating Officer) remarks, this app streamlines police operations and enhances effectiveness in the field.

Mera Pyara

Mera Pyara, powered by AI, efficiently records and broadcasts cases of missing children and special / abnormal individuals, utilizing automated matching algorithms to generate notifications of potential matches. Seamlessly integrated

with the Punjab Police Public mobile app, this solution empowers the public to report lost and found individuals, significantly improving the chances of successful recoveries and reunifications.

Tahafuz Markaz

A dedicated Tahafuz Markaz for addressing and prioritizing grievances of the transgender community. A safe haven that ensures their voices are heard and rights are upheld with unwavering dedication.

Show Cause & Appeal Automation

The HRMIS system undergoes a significant enhancement with the incorporation of Show Cause and Appeal Automation. This update ensures fair and efficient proceedings, where outcomes from the orderly room determine whether the show-cause notice is to be discredited or if appropriate disciplinary actions are imposed on the delinquent officer.

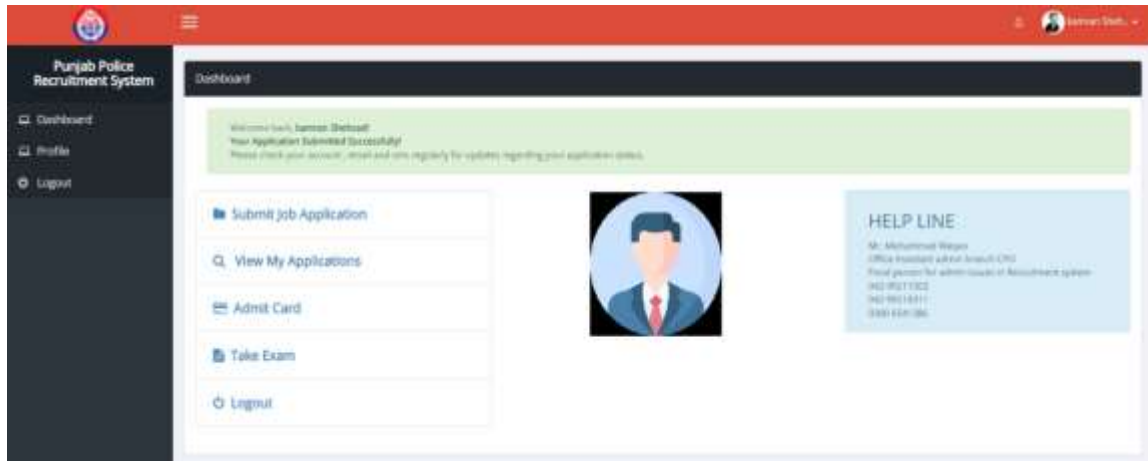

Face Trace: Facial Recognition System

Face Trace: Facial Recognition System is integrated with the criminal database, enhancing law enforcement's ability to identify and track suspects swiftly. Its ongoing integration with PKM, Driving License Management Information System, and Punjab Safe Cities Authority will further boost public safety efforts by providing comprehensive and real-time facial recognition capabilities across multiple databases and platforms in the entire province.

Online Recruitment Management System

Revolutionizing Punjab Police’s hirings with our comprehensive Online Recruitment Management System by integrating candidate registration, entry tests, and specialized English and Urdu typing assessments, this software streamlines the process, ensuring the selection of top-tier police personnel efficiently and effectively.

eFOAS– Electronic File and Office Automation System

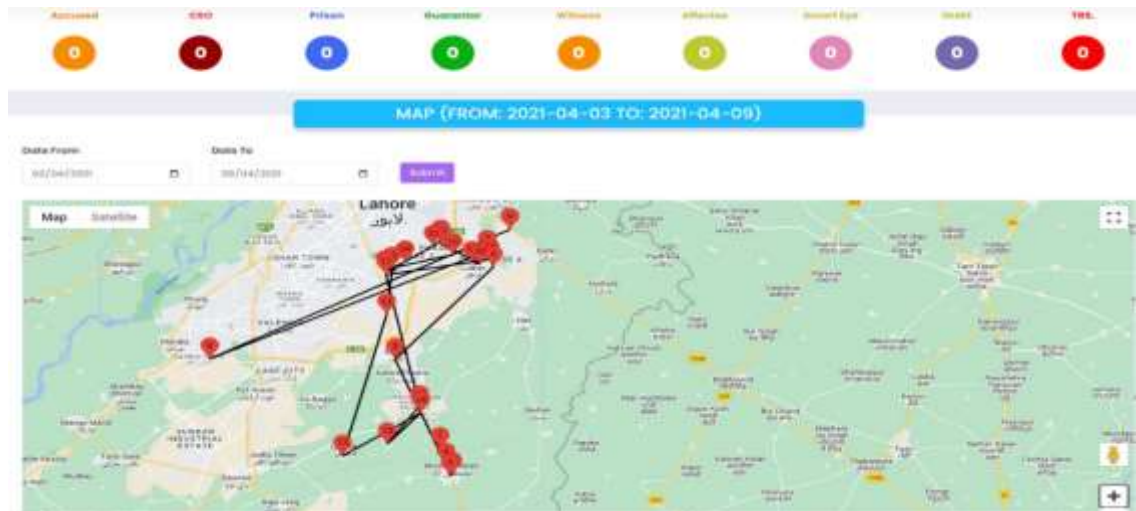

eFOAS – Electronic File and Office Automation System revolutionizes traditional post-based workflows by streamlining official letters, summaries, and correspondence, enhancing efficiency and reducing paper usage. With seamless digital communication, it facilitates rapid exchange of information, boosting productivity and promoting a more sustainable approach to office operations.

CDR Analysis System

Introducing an advanced call data record analysis system empowering law enforcement to meticulously trace criminal pathways through hotel bookings and precise location tracking. This elevates investigative precision, enabling

police to unravel vital leads and enhance crime-solving strategies with unparalleled accuracy.

Gangs and Organized Crime

The Gangs and Organized Crime Dashboard employs advanced data analysis to identify patterns of similar crimes committed by people living in close proximity, enabling law enforcement to call in suspects for investigation and uncovering potential criminal networks within communities.

RPO Conference (Revamping)

RPO Conference is empowering law enforcement to analyze crime trends categorically. Now, police can make data-driven decisions and implement targeted interventions to effectively address and combat various criminal activities in their jurisdiction. Further, police can also study its own performance in terms of year wise comparison category and also in terms of recovery and capturing criminals etc.

PUNJAB SAFE CITIES AUTHORITY

Introduction

The Punjab Police Integrated Command, Control and Communication Centre (PPIC3) Project is part of the Chief Minister's vision to enhance the security of lives and property of the people of Punjab by employing smart technology and equipping Punjab Police with modern capabilities. The project has not only enhanced safety and security of people but has also boosted economic development by attracting local and foreign investment.

The Punjab Safe Cities Authority (PSCA), established under the Punjab Safe Cities Authority Act 2016 with aim to ensure establishment, development and maintenance of integrated Command and Control system for Police in major cities of the province for public safety. The Safe City is a concept for returning security and quality of life to today's complex cities through the use of modern technology, infrastructure, personnel and processes.

PPIC3 Lahore and PPIC3 Kasur are the flagship projects of Government of the Punjab with prime objective to make these cities safer, smarter and more efficient. These PPIC3 centers are dedicated to ensure enhancement of security, surveillance and safety of the public by enabling quick and efficient responses to incidents. The integration of technology and communication systems allows law enforcement agencies to gather real-time information, make data-driven decisions and allocate resources more effectively.

Achievements

The Punjab Safe Cities Authority has marked a significant and commendable achievement in the realm of digital media, solidifying its online presence by being awarded the coveted silver play button from YouTube. This recognition comes as a result of the PSCA's relentless efforts and dedication in utilizing the digital platform to connect, engage, and educate the masses. With an impressive subscriber count of more than 100,000 the PSCA has not only garnered a substantial online following but has also established itself as a trusted source of information and awareness.

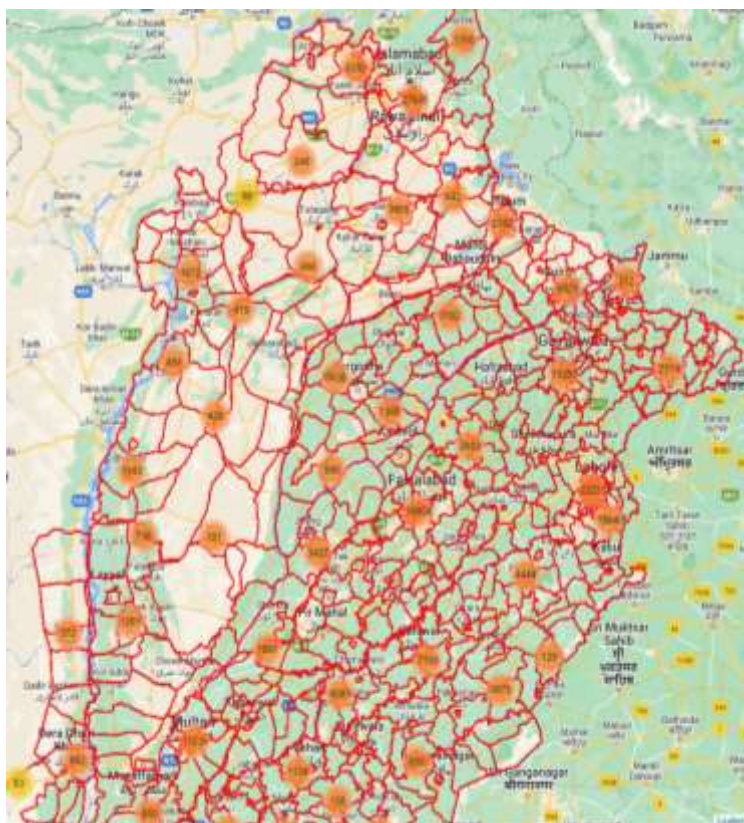

Updates on Former Initiatives
PPIC3 Nankana Sahib

The Project is currently under execution phase. Project’s physical progress include successful installation of 28 IPNV sites having 101 cameras, 06 entry exit sites having 33 cameras and Building work of PPIC3 Centre. Site Acceptance Tests (SATs), User Acceptance Tests (UATs) and connectivity with Lahore are under process.

Private Cameras Mapping Application (Punjab)

An Android-based mobile application was developed to gather records from private cameras installed at various locations, such as shops, schools, petrol stations, and mosques, to enhance security measures throughout Punjab. The application allows police field staff to collect information through the app, which is then displayed on a dashboard. Initially, it was implemented in the Lahore district, and now it has been replicated across all 36 districts of Punjab. As of June 30, 2023, a total of 10,19,304 cameras on 212,406 sites in Lahore and 9,90,039 cameras on 165,052 sites in the remaining 35 districts of Punjab have been mapped. This initiative has significantly strengthened the state's surveillance infrastructure, making it more resilient and better equipped to ensure public safety. The private cameras mapped will subsequently be integrated with PPIC3 center at Lahore in phases.

Chapter 14

INVESTIGATION BRANCH, PUNJAB

The Investigation Branch Punjab is the premier investigating agency of the police department, which carries out investigation of complicated, high profile and contested cases. Its job is specialized one, which requires expertise, professional commitment, devotion and a lot of hard work. It also collects the crime statistics from all the field formations of the province. All the collected data is analyzed and its reports are disseminated on incidence, detection and prosecution of criminal cases. The branch studies modus operandi adopted by the criminals and coordinates inter-district and inter-province preventive and detective efforts and strategies. Investigation Branch has maintained and upload on Police Website record of Head Money Proclaimed Offenders containing bio-data after a thorough analysis of crime history of these fugitives of the law. Investigation Branch sends recommendations to the Government of the Punjab for notification of head money for the arrest of these out-laws. This branch is also responsible for distribution of head money to the deserving police officers. A Finger Print Bureau, which has the largest collection of fingerprint records in the country also functions under this branch.

DIG/Crimes is looking after both monitoring/analysis of crime; DIG Investigation/Monitoring is looking after the investigation of cases entrusted to different officers of the Provincial Investigation Branch. Investigations of different contested cases are also entrusted to the Investigation Branch after the third change of investigation ordered by the Inspector General of Police, Punjab. Such changes of investigation are ordered on the recommendation of the Provincial Standing Board comprising the DIG/Investigation/Monitoring and two senior most Superintendents of Police posted in Investigation Branch, Punjab.

The AIG/Monitoring & Crime Analysis supervises the working of the Provincial Criminal Record Office (CRO), Monitoring Section, ATA Section, and Statistical Office, Finger Print Bureau and Fire Arm Bureau.

The Additional Inspector-General of Police Investigation, being head of the Investigation Branch supervises the administration and functions of the branch. On the investigation side, Addl: IGP/Investigation is assisted by DIG/Investigation/Monitoring, 05-SSPs/SPs, DSP/Legal 02 and 06-DSPs/Investigation. On the crime side, Addl: IGP/Investigation is assisted by DIG/Crimes. SSP/Administration, AIG/Monitoring, and Statistical Officer,

Criminal Record Office (CRO) and Finger Print Bureau (FPB) also work under the supervision of DIG/Crimes.

The Investigation Branch is also working to analyze the availability of cost of investigation and to see that whether the present cost of investigation provided for each head of crime is sufficient to investigate the case. Recently, the Investigation Branch has also started monitoring of Regional Investigation Branches to see the progress of cases of investigation as a first and second change. The data are being collected and analyzed. The data is not only being collected to see how many cases are being finalized by the Regional Investigation Branch but also to ensure that they have an adequate number of manpower for the speedy investigation. The Investigation Branch is also preparing and disseminating the guidelines for the field officers and field units regarding the investigation of the cases.

The Investigation Branch deals with the 3rd change of investigation and conduct of investigations. During the year 2022 and 2023, disposal of Cases Investigated by Investigation Branch is as under:

Cases considered by the Standing Review Board

Sr.	Year	Previous Balance	Received during the Year	Total	Applications considered by the Board	Recommended for 3rd Investigation	Not Recommended for 3rd Investigation	Pending Investigation at the end of the Year
1.	July to Dec. 2022	39	207	246	205	26	179	41
2.	2023 up to June	41	241	282	263	67	196	19

CASES U/INV IN INVESTIGATION BRANCH

Sr.	Year	Previous Cased U/Inv.	Received during the Year	Total	Previous Cases Completed	Fresh Cases Completed	Total Cases Finalized	U/Inv. Cases at the end of the Year
1.	July to Dec. 2022	31	26	57	21	10	31	26

2.	2023 up to June	26	67	93	10	20	30	63
----	-----------------	----	----	----	----	----	----	----

During the year, focus upon the speedy disposal of cases was being drawn by the investigation branch, so that the people coming from all over the province may not suffer because of the undue delay in the investigation process.

The Investigation Branch also collects data from all over the province and monitors crime situation. These figures are presented to high ups as and when required. To have a quick look at the overall crime situation in Punjab, crime analysis for the year June2022to July2023is as under:

Crime Analysis2023 up-to 30th June

Taking a bird's eye view of the crime figures pertaining to 2023, it is clear that the total reported crime increased by **133893**as compared to 2022. It comes out to be **36%**.

In heinous offences, increase of **54%**in Gang Rapes, **144%**in Street Crime, **123%**in Robbery,**71%**in M.V. Theft, **99%**in M.V. Snatching and has been witnessed in 2023 as compared to 2022.

Crime Analysis 2022 July to December

Taking a bird's eye view of the crime figures pertaining to 2022, it is clear that the total reported crime increased by **87242**as compared to 2021. It comes out to be **13%**.

In heinous offences, increaseof**06%**in Murder, **42%**in Robbery,**15%**in Gang Rape, **10%**in Dacoity/robbery with Murder**35%** in M.V Snatching, **27%** in M.V Theft and **28%** in Street Crime. Whereas **19%**in Kidnapping for Ransom, **35%**in Escape from Police custody and **38%**in Religious cases has been witnessed in 2022 as compared to 2021.

The terrorism and the resulting security requirements overwhelmingly consumed the attention and resources of the police in 2023. It witnessed an increase of **100%**as compared to the last year. The relevant figures are cited as under:

Real Terrorism Cases under Investigation						
Year	Case Registered	Killed			Injured	
		Terrorist	Police	Civilians	Police	Civilians

July to Dec. 2022	3	0	0	0	0	1
2023 up to June	4	3	3	3	0	6

Despite the onslaught of terrorist incidents and subsequent deployment in security related measures, the police kept on pursuing the cases in courts. Over all Conviction Rate remained **53%** during the said period of 2022 (Murder **34%**, Dacoity **09%**, Robbery **03%** & Kidnapping for Ransom **23%**), as compared to **53%** during the last year i.e. 2021 (Murder **27%**, Dacoity **06%**, Robbery **03%** & Kidnapping for Ransom **38%**). The police incessantly worked despite the martyrdom of their brother officers/officials.

The Punjab Police never lost sight of the measures required for the apprehension of proclaimed offenders and court absconders, etc. They are considered the lurking danger for the society and potential threat for further commission of crime. Total **9040** "A" Categories PO's were arrested 2022-2023 and **16161** were still at large. Out of total PO's arrested, **2712** were of Murder, **3132** of Dacoity, **3219** of Robbery with Murder and **77** of Kidnappings for Ransom.

The incidence of crime is a socioeconomic phenomenon and duly affected by the factors contributory to the societal fabric like population growth, economic deterioration and unemployment, etc. The performance of these factors has been reflected in the official statistics as less than optimal. The situation is further aggravated by the upsurge in terrorism and onset of natural calamities like floods.

The Investigation Branch is also responsible for preparation of crime reports, reports on ATA cases, maintaining record of criminals, monitoring of heinous cases, comparison of finger prints, etc., details of which are given hereunder:

Training and Capacity Building of Investigator

The need for training and enhancement of investigative skills of police officers cannot be overlooked. The Punjab police are conscious of the fact that there is no room for traditional methods of investigation in the 21st century. Hence, efforts are being made to train police officers on modern lines and provide them the state-of-the-art training. The following areas are being focused under this program need special mention:

a.	Homicide Investigation Units have been established in all over Punjab to investigate heinous crimes.
b.	Specialized courses are being run for the investigation staff.
c.	Police officers are being trained to use of scientific methods to collect material evidence in order to ensure effective prosecution.
d.	Investigation staff has been provided new investigation kits in order to achieve the objective of scientific investigation.
e.	State of the art forensic laboratory is being established which will be equipped with the latest testing facilities.
f.	Police records are being computerized and linkages are being developed among all districts and police stations in the Punjab. This will help store and retrieve the requisite data in an expeditious manner.

Consolidation:

To deal with the situation a comprehensive strategy has been adopted and continuous adjustments and revisions are being made through research, analysis and consultations. Some of the important ingredients of the strategy are free registration of cases, expeditious investigations, arrest of proclaimed offender's/court absconders and vigorous prosecutions. The capacity building and accountability of the officers are also being taken care of appropriately.

Conduct of investigation is a specialized job and investigation branch Punjab, being the prime investigation agency, is well aware of this fact. Therefore, professional and dedicated police officers are posted here who could dispense justice. During the year 2022 the investigation branch Punjab showed considerable improvement in its working, but room for improvement is always there.

Chapter 15

SPECIAL BRANCH, PUNJAB.

Foundation of Special Branch, Punjab was laid down by the British Government in 1835 with the creation of Anti-Thaggi and Dakaity Department in British India with Sir William Saleeman as its first General Superintendent. Thugs were involved in various criminal activities across the country. So it was the need of the day that there should be a central department to eliminate thugs. After the war of 1857, the British Government in India thought it necessary to have a check on anti British organizations. So this department was tasked to keep an eye on such organizations and collect necessary information about their activities and members. In 1877 the department was given the additional duty of collecting secret and political intelligence.

In 1887, Special Branch of Police was established in each province under the orders of Viceroy of India. Its main duty was to collect secret information about the various anti British organizations and to inform the concerned authorities. It was further tasked to have a watch on sectarian problems, illegal trade, movement of foreigners, movement of suspects and holders of illicit arms.

In 1902, Fraser Commission recommended to establish a new department with the name of Criminal Investigation Department. First, the department was established in 1907 at Federal level and its head was designated as Director. In 1908, CID was established in each province and Special Branch was merged with CID. Mr. Wallace was appointed as first Director of CID Punjab. Its charter of duties was notified in 1915 in the form of a manual called CID Manual.

However, after the amalgamation of Special Branch into CID, its further reorganization was carried out. Railways and Crimes Branch were also attached with it and its head was re-designated as DIG. This new set-up was made to collect criminal and political intelligence and also deal with the crimes of special nature. Duties of Criminal Investigation Department were notified as following:-

- i. To promote co-ordination among the Police of different districts and different provinces.
- ii. To watch and report on all religious and political movements affecting the province and India as a whole and to maintain close co-operation with district authorities.
- iii. To scrutinize the publications of the vernacular press and all Indian owned newspapers and printing presses.

- iv. To check crime by the prompt publication of information of any incident in the CID Gazette.
- v. To trace and recover the stolen property.
- vi. To collect information and prepare intelligence reports to assist District Police in their work.
- vii. To undertake the investigation of following cases:-
 - a. Currency notes forgery cases.
 - b. Counterfeit coining cases.
 - c. Cases of professional poisoning.
 - d. Theft of Government arms and ammunition.
 - e. Trade of illicit arms.
 - f. Important cases in which the foreigners were involved.
 - g. Extensive frauds and floating bogus companies.
 - h. Cases of dacoity concerning more than one district, house breaking, thefts extending beyond the limits of one district.
 - i. Trafficking in women.
 - j. It is noteworthy that it was clearly mentioned in the orders that this department was created to assist the district Police and was not given any supervisory authority.

Bifurcation of CID

CID was bifurcated in 1955 into two independent branches, viz: Special Branch and Crime Branch, because of ONE UNIT. It was felt that one DIG CID was not enough for the whole province of West Pakistan to deal with Political Intelligence and Criminal Investigation simultaneously. Special Branch was assigned collection of information about socio-political activities and Crime Branch was made responsible for investigation of crime on scientific lines.

In 1976, post of DIG Special Branch was upgraded to Additional Inspector General of Police. Two posts of DIG were created to hold the portfolios of Intelligence and Security of VIPs and sensitive installations in 1980 and 1986 respectively.

The influx of Afghan refugees after Soviet invasion in 1979, brought a flood of sophisticated weapons and narcotics. This gave birth to many subversive and terrorist activities in Punjab. In order to counter the situation, a Cell under the supervision of a DIG was created in Special Branch with the name of Anti Terrorism Cell (ATC) in 1987.

In the year 1987, Research & Reference Cell under the control of a Director was established in Special Branch, Punjab to conduct scientific research on socio-economic issues having bearings on law & order and security situation.

In 2004 Special Branch was re-organized and further expanded up to Police Station level. Presently Special Branch, Punjab is headquartered at Robert's Club, Church Road, Lahore with ten regional offices. Each regional office is headed by an officer of the rank of (Senior) Superintendent of Police. Following are the regional offices of Special Branch, Punjab:

1. Lahore Region
2. Sheikhpura Region
3. Gujranwala Region
4. Rawalpindi Region
5. Faisalabad Region
6. Sargodha Region
7. Sahiwal Region
8. Multan Region

Chapter 16

Counter Terrorism Department (CTD) Punjab

Vision

Implementation of Government of Punjab's resolve to fight against the menace of terrorism in all its manifestations by utilizing all available means and resources.

Mission Statement

To protect Punjab from threat of terrorism by performing intelligence, operations and investigation functions at local, provincial and national level. CTD's overriding priority is to keep public safe and disrupt terrorist activities of individuals and organizations.

Introduction

Keeping in view the internal security situation, especially continued terrorist attacks in all parts of Pakistan in 2009-10, on 21 July 2010 vide Notification No. SO (IS-II) 3-24/2009 (P-I) Crime & Investigation Department (CID) in Punjab was re-constituted as Counter Terrorism Department (CTD). Afterwards, the Prime Minister of Pakistan, approved restructuring of Counter Terrorism Department (CTD) in 2013 as a professional force which shall be highly trained, well paid, properly equipped having adequate capacity for intelligence gathering, undertaking operations and investigation of offences of terrorism. Hence CTD Punjab has been established to fight terrorism in Punjab in an effective manner. It performs three functions under one roof; gathering of CT intelligence, conducting CT operations and investigation of CT offences.

FUNCTIONAL SCHEME

Collection of Intelligence regarding terrorists and terrorist organizations

Out of 926 Corporals 54% are deputed in the Intelligence wing of CTD. The function of Intelligence wing is to collect, collate and disseminate the actionable intelligence along with infiltration in terrorist organizations.

Intelligence wing has established Intelligence Processing Unit (IPU) at District, Regional and Headquarters level for collection/evaluation/analysis of information gathered through Information Reporting Proformas (IRPs) from field formation.

Conducting operations for arrest of the terrorists

27% corporals are deputed in the Special Operations Wing. Covert and overt operations are conducted by the Special Operation Wing of the CTD to arrest the terrorists/suspects.

During 2022-23, 1440 Intelligence Based Operations and 17755 Combing Operations were conducted by the Special Operation Wing of CTD in which 06 jet black terrorists were killed and large quantity of explosives, detonators, SMGs, Pistols and prima cord were recovered.

Investigation of the offences of pure terrorism

19% corporals are deputed in the Investigation Wing. CTD investigates the offences of pure terrorism in its own newly established Police stations. After the establishment of Police Stations in March 2015, CTD has started registering the cases regarding terrorism/sectarianism followed by the investigation of the cases. To sharpen the skills of investigators as well as corporals, a comprehensive specialized training of investigation and prosecution has been imparted to the staff of Investigation Wing with the collaboration of CAPRI (British High Commission). 1992 cases of terrorism have been registered under ATA in 10 Police stations of CTD since March 2015. Interrogation of the terrorist/suspects is also done by Investigation Wing of CTD.

GSM Locator

Introduction: GSM locator Section falls under the Technical Wing of Counter Terrorism Department of Punjab headed by the SSP/Technical.

GSM locator works by using the information provided by the mobile phone network and linking that to the cell transmitting antenna location data with the help of VBTS (VBTS is a smaller base station that is designed to replicate actual base station. This is designed to perform operations like actual base station but with limitations. Mostly it is a movable solution, shown as in picture below). Doing this, we are able to locate the desired mobile device fairly precise. GSM locator has two major components which are VBTS (Virtual BTS) and Direction Finder.

- c. To implement the network infrastructure in all blocks of CTD Headquarters.
- d. To provide uninterrupted, secure and fast (LAN) internet access to all blocks of CTD Headquarters through Fiber Optics.
- e. Installation of secure and separate Wi-Fi-network in all blocks through access point devices controlled by AP.
- f. Maintenance and upgradation of IT Gadgets/Equipment (Laptop & PC) in use at Headquarters.
- g. To organize online video conferences/meetings through polycom in Headquarters and Regional Offices and upgradation of participants from 15 to 100 through registered Zoom license
- h. Provision of services to Regional focal persons of IT regarding networking, infrastructure, configuration of video conferencing system and implementation of user policies, etc. in their offices.

Achievements

As per the directions of W/Addl. IGP CTD Punjab, emphasize was on efficiency and security of Network Infrastructure and to build state of the art Technical Block, while following are the major achievements during this period:

- a. Services for upgradation of Network Firewall to enhance the network security at Headquarters.
- b. Updating the Video Conferencing System in Admin Block.
- c. Installation of Access Control System in Intelligence and Training School Block.
- d. Installation, maintenance and renewal of expired software's. Availability of prompt technical response to all ROs/DOs.
- e. Implementation of User Polices according to their Job descriptions on all Computers in CTD Headquarters.
- f. Networking of Training Block in CTD Headquarters.
- g. Installation, maintenance and upgradation of windows, softwares, security protocols, VPNs, printers, and other applications on all computers installed in all blocks of CTD headquarters.IT section is also providing technical support and training to all focal persons working in Regional and District offices.
- h. Services during Technical Cadre Course (IT Trade).
- i. Installation and setup of Access Points (APs) in all blocks of CTD Headquarters.
- j. Fiber connectivity in all newly constructed buildings (QRF, OPS, Firing Range, MT, Store etc.) with data center in Technical Block.
- k. Maintain daily record of Bio-matric in Headquarter, regions and districts, also providing technical support and training to regional and district focal persons.
- l. Technical support for Polycom video conferencing system in regional offices.
- m. Windows and software installation on old computers installed at blocks (i.e. Addl. IGP, Admin, R&A, Intelligence, CVE, Technical, Store, MT and Operations).
- n. Configuration and installation of Windows and software in 200 new laptops and PCs in CTD Headquarters.
- o. Photography and videography of special delegation, guests and official visits to CTD headquarters.
- p. Photo and video editing through newly acquired software adobe full package (photo editing, video editing, pictorial display, videography etc.).

Geo-Fencing and Digital Forensics Section

Introduction

Section headed by In-charge Technical Wing CTD Punjab, responsible to provide Geo Fencing analysis of terrorism incidents, Computer & Mobile Forensics, also providing technical trainings related to Geo Fencing and Digital Forensics to CTD Punjab.

Initiatives

Geo-Fencing and Digital Forensics is working on implementation of different new gadgets currently in use of Different LEAs worldwide to improve Geo Fencing and Digital Forensics. Efforts are being made to modernize the forensics lab with latest tools and software being used by the top LEAs:

Gadgets/Software for Mobile Forensics

1. Cellibrite UFED 4PC
2. Magnet AXIOM
3. Oxygen Forensics
4. Detego Ultimate Suit

Gadgets/Software for Computer Forensics

1. Magnet Axiom
2. X-Ways Forensics
3. Oxygen Forensics

Achievements

During the year, the Geo Fencing & Digital Forensics Section has achieved following objects:

- a. Forensics of 51 Mobiles & 03 Sims for Regional and District offices of CTD Punjab.
- b. Forensics of 45 Memory Cards & USBs for Regional and District offices of CTD Punjab.
- c. Forensics of 15 Hard Disks for Regional and District offices of CTD Punjab.
- d. 37 Requests have been received for BTS Data from all Regional Offices.
- e. Total 2750 Cell IDs data delivered to all Regional Offices.
- f. Geo-Fencing of Jinnah House attack on 9th May 2023.
- g. Dedicated forensics workstations have been obtained for fast and reliable forensics.

- h. IBM i2 analyst notebook has been obtained for CDR and BTS analysis.

Software Engineering Section

Introduction: Software Engineering section is working day and night to achieve the mission of automation and digitization in CTD Punjab. SES has been developed and launched numerous software successfully in the last 6 years to make CTD enrich in tools and technologies. The objective of this section is paperless working, easy analysis, automation, reporting, data manipulation, storage, management and security.

SES Achievements

Projects/Features that have been newly developed / Launched during this period are:

- a. Document Control Management System – DCMS:** Revolutionizing document management, the CTD Document Control Management System ensures the secure and efficient handling of critical documents throughout their lifecycle. This software optimizes access, sharing, and storage processes, enhancing workflows, policies and protocols for streamlined document control.

New Task and Features Statistics

Activities	Total	Detail
Core Features	23	Its core features included version control (document history), access security and streamlined approval workflows, fostering collaborative work with robust search and retrieval functionalities. With audit trails, compliance tools and detailed reporting, it supports accountability, regulatory adherence and data-driven decision-making. The user-friendly interface, centralize storage, and ongoing support make the DCMS an indispensable tool for organizations seeking automation, collaboration and heightened document security.

- b. GEO-Scape Mobile Application:** The Geo-Scape Mobile Application stands as a pioneering achievement in location-based intelligence and geo-tagging. It revolutionizes the mapping of diverse entities such as worship places, minority locations, person addresses and instances of sectarian tension. The app's innovative features extend to private camera tagging, offering a comprehensive geospatial solution. It has successfully enhanced situational awareness, security measures and community mapping by providing a dynamic

platform for efficient and accurate geo-tagging. With a user-friendly interface, real-time updates and precise mapping capabilities, Geo-Scape has become a valuable tool in promoting public safety, interfaith harmony and data-driven decision-making.

Core Features	9	It covering tagging of different entities, user account and device management, facilitating easy retrieval of entities' information, robust security measures, including encryption and authentication, guarantee data integrity, offering a user-friendly experience for impactful geospatial insights.

c. WORK MANAGEMENT SYSTEM – WMS: The Work Management System (WMS) is a secure web-based intelligence management software that facilitates all CTD officers/officials' activities. It encompasses the recording of information across various modules, including persons, vital installations, organizations, worship places and tensions, culminating in the final evaluation, disposal and documentation of entities.

New Task and Features Statistics

Activities	Total	Detail
Core Features	18	We have been diligently working on a myriad of enhancements and implementations in the CTD Punjab's systems. Some of the notable achievements include refining the office hierarchy, introducing an advanced Intelligence Project module and streamlining Information Report Proformas (IRPs) across ten different scenarios encapsulated in nine distinct reports. The system's capabilities have been extended to include features such as analytic reports, lookup data, comprehensive person profiles, geotagging app activities, meticulous person module reports, geospatial data accuracy, user management improvements, refining reports related to religious tensions, IRPs and in all others modules including other critical updates.

d. STORE INVENTORY MANAGEMENT SYSTEM – SIMS: The Store Inventory Management System (SIMS) stands as a centralized solution pivotal in efficiently managing the allocation and disposal of store items while maintaining a meticulous record of stock. Throughout the year, significant enhancements and developments have been achieved, enriching the system's key features. These include advanced capabilities for streamlined stock inventory processes, ensuring optimal organization and accessibility. SIMS has

successfully contributed to heightened efficiency, accuracy, and transparency in store management, offering a robust solution for inventory control and record-keeping.

New Task and Features Statistics

Activities	Total	Detail
New Features	13	The core features developed in Store Inventory Management System (SIMS) encompass streamlined stock allocation and disposal processes, meticulous record-keeping of stock movements, a user-friendly interface for seamless navigation, robust reporting functionalities for insightful analyses and stringent security measures to protect sensitive inventory data. These features collectively contribute to the system's effectiveness in ensuring precise, transparent and accessible store inventory management.

e. BURAQ AI BOT (WHATSAPP): CTD Buraq is an AI bot program designed for real-time responses, offering users the convenience of interaction without the need to log in to a web portal. The system ensures security and authorization by registering and verifying users through their WhatsApp numbers. Only authorized users can access CTD AI Bot for instant assistance, providing real-time answers to queries.

New Task and Features Statistics

Activities	Total	Detail
Features	7	Key features of the system include the integration of data from diverse sources such as tenant records, hotel information, PSRMS, driving licenses, AVLS, subscriber details, Afghan refugees data, traveler history, PTCL subscriber records, excise data, location information, AIES for b-party search, arms license data and more.

f. Advance Intelligence Extraction System – AIES: AIES has achieved a significant milestone by offering a powerful CDR analysis capability. This feature is instrumental in deciphering the WHO, WHAT, WHEN and WHERE aspects through sophisticated computer-based intelligence analysis. This accomplishment enhances the system's ability to provide comprehensive insights for more effective decision-making in intelligence operations.

New Task and Features Statistics

Activities	Total	Detail
Core Features	6	Over six new features have been introduced, stemming from various divisions across CTD Punjab, including the CDR section of CTD Hqrs.

		Additionally, several requirements have been initiated by the support team of the Technical wing at Hqrs, with a predominant focus on enhancing analysis capabilities and data parsing functionalities. This collaborative effort signifies a continuous commitment to advancing and refining the capabilities of the system.

g. Counter Cyber Terrorism Wing – CCTW: The Counter Cyber Terrorism Wing (CCTW) stands as a significant achievement in the realm of software development. Tailored for the specific needs of the CTD Punjab, this software serves as a comprehensive digital solution for recording, blocking, and tracing instances of cyber terrorism. It plays a crucial role in monitoring social media profiles, websites and other internet requests, contributing to effective and timely disposal of cyber threats. The Counter Cyber Terrorism Wing (CCTW) stands as a significant achievement in the realm of software development. New Task and Features Statistics

Activities	Total	Detail
New Features	5	Five new features have been successfully developed, with a focus on enhancing reporting capabilities and data analysis.

h. SMART: The CTD Special Management & Reporting Tools serve as a centralized gateway for all software developed by CTD SES. This platform offers swift access to the list of CTD employees and their respective projects. By providing quick access to actionable and valuable information, it empowers CTD employees to enhance their effectiveness and efficiency in their work.

New Task and Features Statistics

Activities	Total	Detail
New Features	2	Key new features implemented include user authentication enhancements and streamlined project assignment processes.

i. API (Search Against PITB APIS): The API portal serves as a centralized control point for managing access to external APIs. Authorized officers can utilize this portal to retrieve information related to CNIC from various APIs, including those associated with tenants, the hotel eye system, Criminal Record Offense (CRO) and PSRMS. This centralized platform enhances efficiency in accessing crucial data from multiple sources, streamlining the information retrieval process for authorized personnel.

New Task and Features Statistics

Activities	Total	Detail
New Features	1	Address and resolve the issues reported by field staff and support personnel to ensure seamless operations and enhance system functionality.

j. Forensic Report Management System – FRMS: FRMS has been successfully implemented across all CTD Punjab offices, serving as a reliable platform for storing and retrieving various forensic reports received from the Punjab Forensic Science Agency (PFSA). This streamlined system enhances the efficiency of managing forensic documentation for effective investigative processes.

New Task and Features Statistics

Activities	Total	Detail
New Features	3	Three new features have been seamlessly integrated, focusing on enhancing the graphical presentation of data and providing insightful analysis reports for user data. These additions contribute to a more visually intuitive and analytically robust user experience.

k. CTD Case Portal – CCP: The CTD Cases Portal stands as a significant achievement, serving as a dedicated platform for maintaining an independent criminal record of all suspects within CTD Punjab. Notably, it is seamlessly integrated with the Work Management System (WMS), ensuring comprehensive and streamlined management of crucial information related to ongoing investigations.

New Task and Features Statistics

Activities	Total	Detail
New Features	4	During this period, significant enhancements have been made, including the update of case input fields and the development of detailed reports for districts, regions, and headquarters.

i. Employee Management System: The Employee Management System (EMS) is a comprehensive software solution designed to streamline and automate administrative and managerial tasks performed by CTD officials.

New Task and Features Statistics

Activities	Total	Detail
New Features	2	Two notable enhancements have been made to the system, incorporating features for leave reporting and addressing reported issues within the reporting framework.

j. External Sources Databank: An outstanding achievement is the successful integration of the External Databank, seamlessly incorporating it into the CTD Databank. This involved parsing raw data and integrating new sources, notably NTC, Witribe, Vphone and Scm, significantly expanding our records to a substantial two million.

k. Geographic Information System (GIS): A noteworthy accomplishment is the establishment of a Geographic Information System (GIS), a dynamic system adept at creating, managing, analyzing and mapping diverse data sets. This GIS seamlessly connects data to a map, fusing location data with comprehensive descriptive information. This integrated approach serves as a fundamental framework for mapping and analysis, extensively applied across various scientific domains and industries. GIS plays a pivotal role in unveiling patterns, relationships and geographic contexts, fostering improved communication, enhanced efficiency and informed decision-making.

New Task and Features Statistics

Activities	Total	Detail
Features	7	It now facilitates the creation of terrorism incidents heat maps, efficient tagging and GIS layer creation for sectarian tension and district-wise heat maps for TLP activities. Additionally, regular updates to the GIS database ensure its accuracy while the web application remains current with the latest features. Training on Google Earth Pro has been conducted to record routes of Muharram-ul-Haram processions and these routes have been successfully digitalized and integrated into the GIS system for comprehensive spatial analysis.

l. Mobile VPN: The implementation of the CTD Virtual Private Network (VPN) for mobile users stands as a significant achievement. This internet security service establishes an encrypted connection between user devices

across Punjab and the CTD servers. CTD VPN provides remote offices with secure access to internal applications and data, enabling them to connect directly to the CTD internal network through an encrypted tunnel. This tunnel ensures that users can access the internal network without exposing their traffic, ensuring a secure and confidential connection.

m. DATA CENTER (TECHNICAL ADVANCEMENTS): The achievement in the realm of the Data Center involves a series of technical advancements:

- a. **Enhanced Security Measures:** Implemented a comprehensive security update by changing Access Control Lists (ACLs) and passwords across all systems, fortifying the overall system security.
- b. **Optimized Q-Radar System:** Ensured the smooth functioning of the Q-Radar system by generating detailed reports, enhancing its performance in threat detection and analysis.
- c. **Established Disaster Recovery Site:** Built and operationalized a Disaster Recovery site, reinforcing the infrastructure's resilience and preparedness for unforeseen events.
- d. **Automation Backup System:** Implemented a complete automation backup system, securely transferring data from the Disaster Recovery site to the Data Center through a dedicated internal network, ensuring the safety of all critical data.
- e. **Cisco Firewall License Update:** Updated Cisco Firewall licenses to maintain the highest standards of network security.
- f. **Wireless Internet Provision:** Configured Cisco Controllers to provide wireless internet access throughout all CTD Headquarters, improving connectivity and accessibility.

Counter Cyber Terrorism Wing (CCTW)

Introduction

CCTW was developed in 2016 with the aim to build new set of technologies and develop investigation capabilities to counter Cyber terrorism.

- Technically Trained staff monitors social media appearances of banned outfits.
- Coordination with International platforms for data provision.
- Growing partnership with sister agencies.
- Conduct Trainings sessions for CTD personnel regarding cyber techniques and awareness.

a. Blocking Desk: After receiving the suspicious links from CVE section, PPIC3, PSCA and ROs/DOs, this desk is responsible for blocking of those

suspicious links of social media accounts, groups, pages and websites through PTA.

b. Tracing Desk: After receiving the cases from ROs/DOs and CVE section, this desk traces out the suspicious accounts related to banned terrorist organizations through international social media platforms (Facebook, Whatsapp, Instagram, Tiktok etc.).

Year	July 2022- June 2023
Social Media accounts identified and successfully blocked through PTA	11,963
Social Media Accounts successfully traced through Social Media Platforms.	1,676

Initiatives

- a. Trained the CVE (Counter Violence Extremisms) Section, CTD section Headquarters by conducting workshops. Provide them with important information and resources related to blocking and tracing of social media accounts.
- b. CCTW obtained data from International Social Media Platforms on Lahore Anarkali Blast case, Karachi University blast case, Taunsa Police Attack, Islamabad Blast Case and successfully traced the culprits through social media analysis/surveillance.
- c. Started Direct Blocking through Social Media Platforms.
- d. Initiated WhatsApp normal data disclosure requests.
- e. Prepared Booklets, comprising heat maps and activist details of Tehreek-e-Taliban Pakistan(TTP), Baloch Militant Organization (BMO) and Tehreek-e-Labbaik Pakistan (TLP) and shared 1592 activist detail with the regions for working on the identified activists.

Achievements

- a. Findings of objectionable material on social media. Analyze the links, prepare files, and send them to PTA for blocking. CCTW has knocked down 1,39,138 blocking cases sent to PTA for blocking in which 88,159 cases are blocked.
- b. High Success rate in tracing out the suspicious of banned outfit from international platform. Submitted 5,339 cases of Social Media Tracing to International Social Media platforms in which 3,746 cases are successfully traced.
- c. One of the achievements of CCTW is the liaison with Transport service Uber Technologies Inc. and target of data provision from Uber, Tiktok, Snack Video, Sound Cloud and NADRA is successfully achieved.

- d. Coordination with Google services provider for removal of mapping of CTD Punjab office from Google map and Google Earth Services.

Procurement Section, Technical Wing

Introduction

Procurement Section is headed by the OS/Technical, CTD HQRs. The section carries out technical evaluation of technical proposals/samples of goods to be procured by the CTD, Punjab and financial evaluation of bidders/firms participating in the bids. Preparation of final evaluation reports regarding acceptance/rejection of bids is also duty of the procurement section.

Initiatives

This section is working to devise more transparent and efficient methods to conduct the said technical as well as financial evaluation. It is also working on improving reports and line of action in order to conclude tenders ahead of time. Moreover, record keeping methods are worked upon so that it could be accessed and retrieved at any point of time in future.

Achievements

During FY 2022-23, the section has successfully accomplished following tasks:

- a. Technically evaluated and submitted final reports of 1612 items received under 13 heads in tender opened on 19.09.2022, IPL No. 8700.
- b. Technically evaluated and submitted final reports of 45 items received under 02 heads in tender opened on 26.12.2022, IPL No. 12788.
- c. Technically evaluated and submitted final reports of 09 items received under 01 head in tender opened on 18.01.2023, IPL No. 49.
- d. Technically evaluated and submitted final reports of 21 items received under 02 heads in tender opened on 30.01.2023, IPL No. 399.
- e. Technically evaluated and submitted final reports of 131 items received under 09 heads in tender opened on 13.03.2023, IPL No. 1564.
- f. Technically evaluated and submitted final reports of 21 items received under 03 heads in tender opened on 27.03.2023, IPL No. 1924 1925, 1926.
- g. Technically evaluated and submitted final reports of 55 items received under 05 heads in tender opened on 10.05.2023, IPL Nos. 2990, 2992, 2993, 2996.
- h. Technically evaluated and submitted final reports of 01 items received under 01 head in tender opened on 11.05.2023, IPL No. 3060.

Admin Section

Introduction

Admin Section is headed by an Office Superintendent and responsible for overall office working, letter/note drafting, Record Keeping, attendance checking, maintaining employees record posted in Technical Wing, CTD Punjab, to conduct trainings on office management/office working and all other subjects of same nature.

Initiatives

- a. Successfully running DCMS Software, for paperless office working.
- b. Oversaw daily office activities by organizing assignments, monitoring progress and ensuring completion.

Achievements

During the year, the Admin Section has achieved following objects.

- a. Has maintained and updated Personal files of officers / officials, posted in Technical Wing, CTD Punjab.
- b. Record Keeping.
- c. Manage correspondence of all types in Technical Wing, CTD Punjab.
- d. Has efficiently and timely disposed of all the references, received in the Wing.
- e. Daily and fortnightly attendance report is initiated that has not only improved the discipline of Technical Wing, CTD Punjab, vastly, but has also enforced prevalence of chain of command.
- f. Completed several Regular Departmental Enquiries and Appeals, assigned by the authority.
- g. Uploaded 2000+ documents under Old Record on DCMS.
- h. Managed office inventory for smooth running of office operations.
- i. Provided support regarding clerical support to all sections working under Technical Wing.

TRAINING BRANCH

Introduction

Training is the backbone for developing professional standards and organizational development. Right from its beginning, CTD Punjab gives much importance to training and capacity building of its staff. A comprehensive training plan is issued in the form of training calendar in the beginning of each year. Moreover, CTD leadership continuously explores numerous opportunities of skillset improvement through foreign training as well as training at sister-agencies' training institutes which include School of Military Intelligence (SMI), Military College of Engineering (MCE), Army School of Logistics (ASL), Punjab

Forensics Science Agency (PFSA), Punjab Police, KPK Police and Islamabad Police.

CT Training School (CTS) was handed over to Training Branch in January 2021. Since then, a number of classrooms, conference rooms, offices, computer lab, and auditorium have been made functional and CTS directs and supervises whole training program of CTD Punjab.

Training Branch is headed by SSP/Research & Analysis, CTD Headquarters, Punjab, Lahore as acting Principal. Functions of this Branch includes training/capacity building of CTD Punjab' Staff on the following subjects:

- a. Counter Terrorism Orientation
- b. Intelligence
- c. Investigation
- d. Special Operations
- e. Technical
- f. Cyber Terrorism
- g. Information Technology
- h. Explosive & Forensic
- i. Counter Financing Terrorism
- j. Preventive Violent Extremism & Counter Violent Extremism
- k. Report Writing
- l. Training Development
- m. Safety & Security

Initiatives

The following highlighted glaring initiatives have been taken during this period i.e. Jul 2022 – June 2023:

- a. 2nd Intermediate promotional course of Corporals has been conducted at Police Training College, Chung, Lahore.
- b. NACTA e-Portal learning kit has been taken and introduced in CTD Punjab for the continuous capacity building of staff.
- c. Special language learning courses (Pashto & Balochi) have been conducted and it is an online learning initiative by the CT Training School.
- d. Military College of Engineering (MCE) have been liaised with and inter departmental learning program was conducted.
- e. ICITAP – US Embassy has become an important partner of CTD Punjab for the capacity building in the fields of intelligence, investigation and countering terror financing (CFT).

- f. UK STTT program was taken as an opportunity and explosive and technical cadre staff was sent to Military College of Engineering for capacity building of staff.
- g. Trainee officers at School of Military Intelligence (SMI) were trained on CTD Punjab's best practices.
- h. Coordination and collaboration with National Police Academy, Islamabad for the training and capacity building of senior commanding officers.
- i. Coordination and collaboration with Federal Civil Defense Training School, Township for the capacity building of staff.
- j. Coordination and collaboration with National Intelligence Academy (NIA), Islamabad for the training of staff.
- k. Collaboration with Australian Federal Police (AFP) on tracing and investigating terror financing through digital currency.

Achievements (Jul-Dec 2022)

As the COVID-19 outbreak of 4th wave declined, CTD Training School planned training activities and prepared Training Calendar 2022, with collaboration of different sections of Headquarters and Regional Offices, which was being followed and implemented all around in CTD Punjab. We successfully implemented 99% of approved Training Calendar 2022. Following training/courses were conducted during the said period:

Head	No. of Training/Courses	Participants		
		CTD Punjab	Others	Total
Headquarters	29	400	-	400
Regions	78	1,326	-	1,326
Others (EPTS, PTCL, SMI, PP, etc.)	06	215	-	215
Total:	113	1,941	-	1,941

Other than the Training Calendar 2022, following highlighted training/courses were planned, organized and imparted:

1. 5th Exploitation Commander Course by UK STTT at MCE, Risalpur. (05 officials of Forensics & Explosives Trade – Oct 2022)
2. Anti-Money Laundering Course by ICITAP, US-Embassy at PC Hotel, Lahore. (32 officers – Oct 2022)
3. 6th Exploitation Commander Course by UK STTT at MCE, Risalpur. (04 officials of Forensics & Explosives Trade – Nov 2022)
4. Criminal Informant & Recruitment Course by ICITAP, US-Embassy at PC Hotel, Lahore. (38 officers – Nov 2022)

5. Instructor Development-Master Trainer Course by ICITAP, US-Embassy at IFQ Hotel & Resort, Islamabad. (10 officers – Dec 2022)

Achievements (Jan-Jun 2023)

As per the vision of Addl. IGP, CTD Punjab, training calendar was prepared and implemented since 2021 and now Training School is implementing the 3rd annual training calendar that was issued in January 2023. In first 06 months, we have successfully implemented 49% of the approved Training Calendar 2023. Following training/courses were conducted during the said period:

Head	No. of Training/Courses	Participants		
		CTD Punjab	Others	Total
Headquarters	59	2,670	Total: 156 SMI: 120 ASP: 36	2,826
Regions	191	3,866	02	3,868
Others (EPTS, PTCL, SMI, PP, etc.)	14	64	Total: 1,013 SDPO/PP: 160 SHO/PP: 726 SMI: 127	1,077
Total:	264	6,600	1,171	7,771

Other than the Training Calendar 2023, following highlighted training/courses were planned, organized and imparted:

- a. 7th Exploitation Commander Course by UK STTT at Military School of Engineering (MCE), Risalpur. [02 officials - Feb 2023]
- b. Interview & Interrogation Course by ICITAP – US Embassy at PC Hotel, Lahore. [37 officers - Feb 2023]
- c. 1st Multiagency Training Workshop to Promote Common Counter-Terrorism Investigative Approaches at National Police Academy (NPA), Islamabad. [04 officers - Feb 2023]
- d. Bomb Disposal Course No. 127 at Federal Civil Defense Training School, Lahore. [02 officials - Mar 2023]
- e. 8th Exploitation Commander Course by UK STTT at MCE, Risalpur. [03 officials - Mar 2023]
- f. CT Orientation Workshop for SHOs of Punjab Police at Regional & District Offices, CTD Punjab. [726 officers - Mar 2023]
- g. CT Orientation Workshop for SDPOs of Punjab Police at Regional & District Offices, CTD Punjab [160 officers - Mar 2023]
- h. 3rd Multiagency Training Workshop by NACTA at NIA, Islamabad. [04 officers - Mar 2023]
- i. Basic Training Course of 03 Corporals at Police Training College, Sihala. [03 officers - May 2023]

- j. Bomb Disposal Course No. 25 at Federal Civil Defense Training School, Lahore. [02 officials - May 2023]
- k. Improvised Explosive Devices Course No. 97 at Federal Civil Defense Training School, Lahore. [02 officials - Jun 2023]
- l. Searching & Operational Equipment Training Course No. 43 at Federal Civil Defense Training School, Lahore. [02 officials - Jun 2023]
- m. AFP Sponsored Open Source Intelligence (OSINT) Training at Serena Hotel, Islamabad. [02 officers - Jun 2023]

Moreover, together with Training Directorate, CPO Punjab, Training School had planned and organized Basic Training Course of 03 Corporals, at Police Training College (PTC), Sihala.

Investigation Wing

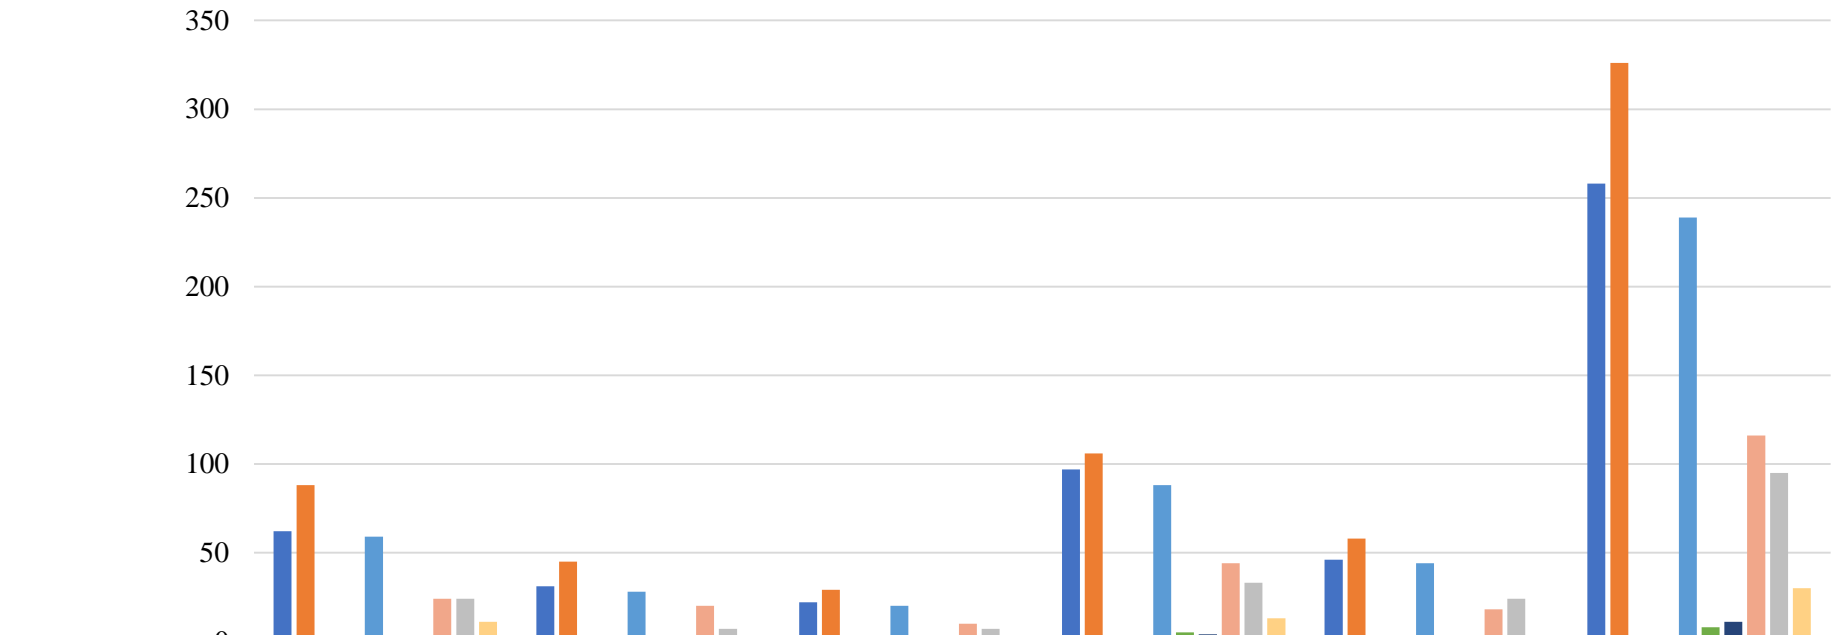

After the establishment of Police Stations in March 2015, the CTD has started registering the cases regarding terrorism/sectarianism followed by the investigation of the cases. To sharpen the skills of investigators as well as corporals, a comprehensive specialized training of investigation and prosecution has been imparted to the staff of investigation wing with the collaboration of CAPRI (British High Commission).

For the purpose of efficient prosecution, a separate prosecution branch has been established in CTD HQ under the supervision of Deputy Prosecutor General (DPG) whose services have been borrowed from the Punjab Public Prosecution Department, Punjab.

Currently 10 CTD Police Stations are working in Punjab i.e. Lahore, Sahiwal, Sheikhpura, Gujranwala, Faisalabad, Sargodha, Multan, Bahawalpur, Dera Ghazi Khan and Rawalpindi.

1992 cases of terrorism have been registered under ATA in 10 Police stations of CTD since March 2015. Graphs and Breakups related to cases registered year wise in PS CTD Punjab are attached herewith.

Chapter 17

PUNJAB CONSTABULARY

Punjab Constabulary formerly known as Punjab Reserve Police was raised in 1972 with the strength of 1,000 Constables, who were trained in anti riot tactics. The main idea behind its creation was to render maximum assistance to the District Police and units of the Province of Punjab for maintenance of Law & Order situation. Its strength was gradually increased upto 2,800 by 1982. Later on as per directions of the Governor of the Punjab its strength was raised upto 5,000 in phased program. During 1987 with its re-organization and renaming as Punjab Constabulary its strength was increased to 12,000.

Presently, the Punjab Constabulary is being headed by an Additional IGP / Commandant assisted by one DIG / Deputy Commandant, one SSP / Hqrs: and 06 SP / Battalion Commanders. Its main Headquarters is situated at Farooqabad, District Sheikhpura. It consists of 07 Battalions which are headed by SSP / Battalion Commanders. Its Battalions are stationed at Sub Headquarters i.e. Battalion No.1, 5 & 7 at Lahore, Battalion No.2 at Rawat Rawalpindi, Battalion No.3 at Mattital Multan, Battalion No.4 at Makowana Faisalabad and Battalion No.6 at PC Hqrs: Farooqabad. All the Battalions of Punjab Constabulary are further divided into three Wings namely Haider, Babar & Tipu which are headed by a Deputy Superintendent of Police. Each Wing has 03 Companies headed by an Inspector. A Company is divided into 03 platoons headed by Sub-Inspector and a Platoon is divided into 02 Reserves headed by ASI and finally a Reserved divided into 02 Sections which are controlled by the command of a Head Constable. The strength of a Platoon consists of 01/SI, 02/ASI, 04/HCs and 40 Constables (Total=47) and the strength of a Reserve consists of 01/ASI, 02/HC and 20 Constables (Total=23).

Main functions of PC FORCE:

1. Punjab Constabulary is an Anti Riot Strike Force which performs duty in emergent situation to maintain law & order in support of district police in the Punjab under the orders of the Inspector General of Police Punjab and also assists Islamabad and AJK Police on their request.
 2. Performing security as well as guard duties on important premises / key installations.
 3. Performing VVIP & VIP security duties.
 4. Any other important duty assigned by W/IGP Punjab.
1. The Punjab Constabulary force under no circumstances, shall be used by the District Police for raids, patrolling, nakabandis, point duties and traffic checking.
 2. The Punjab Constabulary force will always be deployed for duty preferably in reserves. If, however, they have to be split into smaller units they should not be divided below the strength of a section i.e. 1/HC and 10/Constables.
 3. In case the law and order situation takes such a turn that fire has to be opened by the Punjab Constabulary, the officer Incharge of PC will do so only after getting order in writing from the competent authority. It would be the duty of the local D.P.O to see that such competent authority accompanies the Punjab Constabulary contingent in like circumstances.

4. Punjab Constabulary vehicles will not be used for duties like patrolling, traffic checking etc. The transport is meant only for carrying the force from Punjab Constabulary to the Districts for which it is detailed. In case of unavoidable situations, prior approval will have to be obtained from the Addl: IGP/Operations, Punjab or the Commandant, Punjab Constabulary.
5. The DPOs / CPOs / RPOs / CCPO requisitioning the Punjab Constabulary Force will look after welfare of the Jawans and make the best possible arrangements for their boarding & lodging, and provide all other facilities to the maximum possible extent.
6. A Liaison Officer shall be appointed to liaise with the requisitioning unit so that the administrative, discipline and logistics problems arising during deployment could be tackled effectively. The Liaison Officer shall keep close watch on the conduct of all officers and would ensure that they do not indulge in any undesirable activity. Deputy Commandant / SSP Hqrs: shall appoint the Liaison Officer according to the following formula:

Size of contingent	Reserve	Platoon	Company	Wing	More than a Wing
Liaison Officer	Assistant Sub-Inspector	Sub-Inspector	Inspector	DSP	Superintendent of Police

Security Measures

Each premises of PC is being secured diligently with properly trained force, Mounted Squad and CCTV Cameras to ward off any possibility of terrorist activity.

Punjab Constabulary-Anti Riot Force

1. The PC was originally raised as an "Anti Riot Strike Force" to handle law and order situation but over the years, it drifted from its real task. Now being a Borrowing Agency the officers of junior ranks are posted from districts for specific period under IGP's Standing Order No.08/2022. They are imparted a preliminary anti-riot tactics, drill during their recruit training course which at all does not serve the purpose
2. Controlling the mob is a science which needs the knowledge of mob psychology, importance of the situation, tone and gesture of the force, controlling over the nerves, riot control formations, skill to handle the

equipments and knowledge of rules / laws pertaining to control the demonstrations, protests and riots.

3. Riot control refers to the measures used by Police to control discipline and arrest the civilians involved in riots, demonstrations or protest. In developed countries every effort is made to control the law and order situation by using minimum force. Generally, non-lethal weapons like batons, tear gas, pepper spray, water cannon, police dogs, mounted police, electric teaser, long range acoustic device, stink bombs, armored vehicle etc. are used in view of number of protestors and gravity of the situation. Whereas, PC has traditional equipments to cope with law and order situation / riots.

Motor Transport Punjab

Introduction

Transport is a vital pre-requisite for any good and efficient police system because a Policeman moves about City, Town, Highways, Deserts, Forests and far flung hamlets at night and day only in the cause of peace, safety and protection of life, honour and property of the public. A Policeman who has to face the criminals must be equipped and mobilized better than the criminal otherwise he cannot act properly due to such handicaps. Motor Transport Wing Punjab is performing major role in providing transport to the Punjab Police and ensuring their maintenance. Soon after independence, vehicles of Punjab Police were 94 which consisted of military jeeps, troop carriers and trucks etc. In 1961, Motor Transport Wing Punjab was established in Punjab Police Department. After the dissolution of One Unit in 1970, Punjab Police inherited a total fleet of 384 vehicles including motorcycles. Presently 22395, Vehicles/Motorcycles are on the charge of Punjab Police Department. In order to cater the work load of M.T Workshop (Provincial HQ, at Lahore), 10 Sub Workshops have been established on Regional level and 03 mini Workshops have been established in borrowing units like Special Branch, Investigation Branch, Punjab & Qurban Line, Lahore.

Functions

- i. Preparation of proposals/indents for the purchase of transport (Vehicles/Motorcycles) for Punjab Police.
- ii. Distribution of transport (Vehicles/Motorcycles) among Districts/Units.
- iii. Recruitment of Driver Constables/Mechanic Constables.
- iv. Technical advice for the purchase of transport.
- v. Technical inspection of the Police vehicles.
- vi. Auction of condemned vehicles and unserviceable parts of the vehicles of Punjab Police.
- vii. Repairing and maintenance facilities for the vehicles of CPO.

- viii. Maintenance of History Sheets of vehicles from the date of purchase to condemnation/auction.

TRAFFIC PIUNJAB

Currently, following agencies are performing the functions of traffic management in the province of the Punjab:

- a) Punjab Police Traffic Warden Service in urban areas of 36 districts.
- b) Punjab Highway Patrol on 14 selected Provincial Highways.

Administration And Control

a. Duties and Functions of Head of Traffic Police

- Supervision and oversight of the working and performance of members on behalf of the Provincial Police Officer;
- Induction and repatriation of junior rank from the districts or regions to fill vacant posts under the prescribed criteria;
- Formulation of policies, proposals, guidelines and instructions for efficient and effective traffic management system in the Province;
- Coordination with other departments and allied agencies for development, modernization and efficient working of traffic management system

b. Duties and functions of Regional Police Officer

- Supervise the traffic management system in the region under his command;
- Transfer and post the members within the region or inter-district under intimation to the Head of Traffic Police;
- Initiate disciplinary proceedings and exercise of appellate jurisdiction against the members as per rules;
- Countersign the Performance Evaluation Reports as determined;
- Submit such reports and returns as may be required; and
- Route all correspondence relating to traffic management system to the Central Police Office through the Head of Traffic Police.

c. Duties of Head of District Police

- The Chief Traffic Officer or the Traffic Officer shall be subject to the control and supervision of the Capital City Police Officer, the City Police Officer or, as the case may be, the District Police Officer.
- The Head of District Police shall ensure efficient and effective working of the district traffic management through implementation of laws,

policies, technical interventions and coordination with other government departments and agencies as determined.”

d. Traffic Issues

- E-Challaning Draft Law
- Incentive for Traffic Police
- Equalization of Pay of traffic staff
- Accident control and management issues
- Uncovered provincial highways and rural roads.
- Road Furniture and fixtures

Some of the initiatives/special measures taken by the Punjab Traffic Police are as under:

- Recruitment of Traffic Assistants (TAs) in Six City Traffic Police Units
- Revision of SOP regarding Transfer/Posting and posting tenure of Traffic Wardens
- DLIMS, Video filming of commercial driving licenses
- Introduction of Online Public Facilitation System
- Establishment of Drivers Training School with TEVTA in each District
- Up-gradation of Traffic Police Information System (TPIS)
- Abolishing sanctioned posts of Traffic Warden (BS-14) and conversion into posts of Senior Traffic Warden (BS-16)

Change Of Focus – Helping the People

Needless to say, documents checking and document related challans remained the emphasis and focus of the traffic police officers in the past. This mindset was changed in the last few years. Traffic police was asked to change its focus and concentration from documents checking to checking of moving violations.

Similarly, through motivation and constant briefings, attitude and behavior of the traffic police was changed and concept of service, courtesy and help to the public were inculcated in them. The change of behavior and attitude on the part of traffic police has been acknowledged and appreciated by all and sundry.

In addition, the traffic staff was directed to keep an eye on law and order situation, road crime and criminals and assist district police in such situations. The impetus of crime fighting in the traffic staff resulted in a number of foiled attempts of street crimes due to alertness of traffic police. The traffic police

staff contributed a lot and foiled a number of murderous attempts, vehicle lifting/snatching and road robberies during 2022-23.

Traffic Education and Awareness

Traffic education and awareness remained one of the top priorities of the Punjab traffic police. A comprehensive programme, was prepared by the traffic Hqrs. for this purpose. Under this programme several campaigns and activities were launched from time to time throughout the province.

This multi-dimensional programme involved electronic, print and public media. Traffic Police tried to reach every citizen by any available means to attract his attention towards the traffic issues, rules and regulation.

The following table summarizes the efforts made by the Punjab Traffic Police to involve the public and increase their awareness on the traffic laws & rules:

Items	F/Y 2022-23
Traffic Education Programs on cable TV	4111

Plan for moving towards E-Policing:

Use of modern gadgetry, CCTV Cameras on important roads/key intersections/choke points for real time monitoring of traffic flow, duty performance as well as recording of incidents/mishaps, is the need of the time. In this regard, Punjab Safe Cities Authority was constituted and PPIC-3 in Lahore has been established. More than 800 cameras have been installed at various points to detect traffic violations. PPIC-3 is issuing E-Challans through City Traffic Police, Lahore to violators on trial basis, which has been quite successful in improving traffic discipline at main intersections. 90 main chowks and 5 major roads are being monitored by PPIC-3 with regard to traffic violation.

Detailed Plan for E-Policing:

In order to introduce E-Challaning, amendments in Motor Vehicles Ordinance 1965 have been proposed. E-Draft law to provide legal cover to camera integrated enforcement system has been duly approved by the Law Department and is in final stages of approval from the CM and the cabinet. The E-Challaning System is being implemented in Lahore on trail run basis and after promulgation of draft law shall be replicated in other districts of Punjab. The E-Challaning System also includes License Penalty Point System as well as 15% out of fine recovered as incentive to traffic police and 25% for the purchase of equipment / hardware for the traffic police to develop the system.

Issuance of driving licenses:

Driving License Issuance Management System (DLIMS) was introduced in the province in Sep. 2015. Driving licenses in Punjab are being issued under the DLIMS project successfully. The comparative statement of driving licenses issued during Financial Year 2022- 2023 (01.07.2022 to 30.06.2023) is as follows:

Chapter 21

Punjab Highway Patrol

Punjab Highway Patrol was established in the year 2003-04 as a specialist cadre of Punjab Police. Its core function is to ensure safety of road commuters, help them in distress, control the crime on unattended Highways and to change the perception of general public towards traditional Police System. Presently, 360 Patrolling Posts out of 522 are operational, whereas 04 PHP Posts, 02 Police Lines are under construction while 158 remaining Posts are yet to be constructed.

Guidelines regarding duty, management and general behavior were defined in the form of Standing Operating Procedures. A new set of values were inculcated into the force through constant training i.e. initial basic courses and capacity building courses. This has distinguished the force amongst all the Police units.

The constant process of accountability and analysis with regards to the conduct and efficiency of the force has been ensured through vigilance on PHP's response, behavior and the services being provided to the public.

Initiatives

- a. Command & Control Room at PHP Headquarters established.
- b. PHP welfare helpline and projects.
- c. PHP Community Forums/Centers.
- d. 360 PHP Posts have been computerized.
- e. E-Police Post App launched on 15.12.2022.
- f. E-challan started on 27.06.2023.
- g. Axle Load Management Regime started on 15-09-2023
- h. 44 Reporting Centers are established at PHP Posts and providing 06 services of Khidmat Markaz.
- i. 36 PHP Driving Schools & License Centers are being established at major Tehsil HQ of the Punjab.
- j. Action against smoke emitting vehicles.
- k. Campaign against illegal use of gas cylinder in PSV.
- l. Renovation of offices at PHP HQ.
- m. Revamping security of inter provincial border posts.

SPECIAL PROTECTION UNIT

Introduction

With the advent of CPEC in Pakistan, The Government of Punjab conceived the idea of raising a special security component of Punjab Police to extend exclusive protection services to the foreign partners. This idea led to the raising of Special Protection Unit (SPU) and it was formally established on October 23, 2014. "The Punjab Special Protection Unit Act 2016" was promulgated on February 06, 2016 to make provisions for SPU for providing dedicated security to the foreigners, important persons and premises across the Province of Punjab. Present Director / Deputy Inspector General of Police, Tayyab Hafeez Cheema, took the charge on 08th February, 2023 after getting transferred from Elite Punjab Police.

SPU Functions

- SPU ensures the protection of foreigners, important persons and premises as may be notified by PPO / IGP.
- PPO / IGP may extend the services of the unit to a private or public sector organization on payment and conditions as may be prescribed by him and shall be deposited in Government treasury.
- The person / organization utilizing SPU shall bear the cost incurred by the Unit on the provision of infrastructure, machinery, equipment and other related works necessary for the protection of person or premises.
- The Govt. may however after notification recording reasons exempt payment of such services.

iii. Complaints Mechanism

One of the initiatives of Punjab Police is the establishment of an integrated IGP Police Complaint Center. Previously the complaints were received through post or a person had to travel to the conceived office to submit his complaint in person at the Inspector General of Police office. This initiative aims at receiving complaints through SMS and voice calls on a short code (1787). Moreover, complaints are also received online as well as through emails.

A dedicated team of young IT professionals has been deputed to handle these complaints in an expeditious manner. The system is highly interactive and the complainant is kept in the loop till the disposal of the complaint. The complainant can view the progress of his complaint online and can send his feedback at any moment, online or through SMS. Following type of complaints are entertained at the IGP Complaints Center:

- Non-Registration of FIRs
- Registration of false FIR
- Faulty investigations
- Illegal detentions
- Arrests of innocent persons
- Slackness in Duty
- Demand of illegal gratification

All complaints are sent to senior rank officers for due action. These are not marked to an officer below the rank of a Sub Divisional Police officer who is bound to call the complainant by himself within 8 hours and report to the IGP Complaints center that he has made contact with the complainant. Moreover, these officers have to send their final reports within stipulated timelines. For complaints of Illegal detentions and demand of illegal gratification the replies have to be submitted within 24 hours. Similarly, for complaints of Non-Registration of FIRs and Arrests of innocent persons the replies have to be submitted within 72 hours, and for rest of the types of complaints the reports are to be submitted within two weeks. For online compliant link is here

i. Police Khidmat Counters at DHQ & THQs.

ii. Video link installation.

Video link system has been installed at all offices of DSPs/ SDPO to conduct video link meetings with circle officers and complainants as well.

iii. Punjab Police Integrated Command, Control & Communication Centre (PPIC3)

The Punjab Safe Cities Authority (PSCA), established under the Punjab Safe Cities Ordinance 2015, ensures establishment, development and maintenance of an integrated command, control and communication system (PPIC3) for Police in major cities of the province for public safety. The Safe City is a concept for returning security and quality of life to today's complex cities through the use of technology, infrastructure, personnel and processes.

PPIC3 Lahore Centre

PPIC3 is a consolidated hub of integrated policing regulating swift emergency and police responses including, but not limited to, intelligent traffic management, dispatch of Punjab police, PRU and Dolphin force, 1122 emergency response, criminal identifications/ Investigations, virtual surveillance and media monitoring, other than safety and security of the city, this project is also a source of employment to hundreds of young IT professionals.

Objectives

The Program aims to bring together the innovative Concept of Operations (ConOps), quality focused business processes with integrated cutting-edge technology to provide an operational solution that delivers:

- Modern infrastructure to provide real-time information and intelligence.
- Provision of high-quality emergency response systems to the public.
- Facilitate evidence-based decision making in operationally critical situations within the Punjab Police departments to ensure seamless service delivery to the public.
- Implementation of a consolidated IC3 organizational operating model to optimize cross agency coordination, communication, and effectiveness of public safety and emergency services delivery.

Benefits

Programme benefits include following:

- Improved Service Delivery
- Traffic Management
- Monitoring Law and Order
- Electronic Evidence Collection
- Crime Reduction
- Secure Police Communication
- Accountability

Ops Room & Media Relations

With the electronic and social media explosion in Pakistan during the last decade, Police has been subjected to a lot of pressure since negative reporting against the department was not being responded to adequately.

In this regard, to publish/broadcast the view point of the department, a Media Control Room has been setup in which all the electronic channels and social media are being monitored round the clock. Any news item which is aired about the Lahore Police is responded by the DPR Branch immediately. This branch has been revamped with the help of Pakistan Peace Collective Project of the Federal Ministry of Information. Pakistan Peace Collective (PPC) has also arranged extensive training workshops for DPOs and RPOs in media handling. Thus, with this new initiative, Police response on Media has been improved.

Up gradation of police lines.

Following steps have been taken to upgrade police lines Rahim Yar Khan.

- Establishment of modern recreation hall
- Up gradation of police lines mess hall, and cafeteria
- Improved infrastructure of main gate of police lines for better security purposes and beautification.

Front Desk

In order to facilitate the applicants at the Police Stations, Front Desks/Reception Rooms have been established in Lahore. These Reception Rooms are being run by civilian female and male officials of the I.T. branch. Where following facilities are available

Complaints Management

In order to entertain the complaints of the visitors a Complaints Management System (CMS) software is functional, the complainants are issued an E-Tag after receiving their applications. Once the application is entered into the system its follow up is monitored by Senior Supervisory Officers in Lahore till the matter reaches its logical conclusion. If required, the application is also typed for the applicant in the Reception Rooms.

Loss Report

Important personal documents like CNIC, Driving License, ATM Card, educational documents and other belongings often get lost due to misplaced. PKM provides the facility to report the lost documents. Citizen will get a copy of the loss report which you can use to track your application and to apply for new documents.

Required Documents

- Original and copy of applicant's CNIC
- Written complaint by the applicant
- Copy of Lost documents if available
- Copy of any other supported document if available

Medical Lego Certificate

Employee Registration

Whenever someone hires a servant, a maid or any other worker he/she has is bound to register them with Police so that Police has information about the people living in that area. The process of registration has been simplified and can be done by visiting related police station. This will help citizens and Police to be aware about any criminal record of the potential employee.

Tenants Registration

According to the THE PUNJAB INFORMATION OF TEMPORARY RESIDENTS ACT 2015 (<http://punjablaws.gov.pk/laws/2591.html>), whenever a house or a hostel room is rented, owner/tenant/property dealer have to register details (owner, property, tenant info.) in concerned police station for record purpose. Registration can be done by visiting concerned Police Station. After successful registration, front desk officer will provide a certificate to the citizen which will help him/her to avoid any hassle during any search operation.

Police Welfare Branch

Police Welfare branch is providing welfare services to in Service, retired and all Shuhada's Families, at their door steps on priority basis.

Dolphin Squad

A fast-moving motorcycle police unit was initially established in 1993 as the Dolphin Police to combat crime in Istanbul, Turkey. The unit was equipped with modern heavy bikes, weapons and other articles with a special uniform. It was designed with a lot of thoughts and effort's and recommended black color of the uniform to represent government's power while the red color is a symbol

of warmth, love and tolerance. The Dolphin Squad, which has been established in around forty cities of Turkey so far, is nothing less than a nightmare for criminals, while it has become a message of love and tolerance for peace-loving citizens. The squad was named after the famous dolphins for their philanthropy and service because among the creatures living on the planet, the most compassionate and empathetic creatures are the dolphins who are lost in the ocean and guides the ships to shore as well as bravery has the ability to fight sharks when needed.

Police Response Unit (PRU)

Similarly, a modern force called PRU to ensure effective patrolling and to strengthen the Dolphin Squad to curb crime, commercial markets and to promote community policing as per international standards has been implemented. Under which young policemen equipped with modern vehicles and weapons, dedicated to the spirit of public service, modernly trained young police officers patrol in different areas of Lahore day and night to create a sense of security in the people. Some areas on dolphin motorcycles (rural areas, dirt roads) etc. are not suitable for patrolling, so street crime has been significantly reduced by PRU patrolling in these areas. The police response unit has also been equipped with modern equipment such as MDTs4/LTE/G sets and Android phone sweeping in mind the principles of smart policing and digital monitoring. Police Response Unit has also been linked with Command and Control Centre PPIC3.
