This Policing Plan for the year 2023-2024 has been framed by District Police, Chiniot as envisaged in Article 32(4) of Police Order 2002. This document chiefly aims at providing a peaceful atmosphere to the masses so that the society may have a sense of peace and security. It goes without saying that policing in modern times is a complex task. The days of the retroactive policing are over and a new era of proactive policing has commenced. Therefore this annual policing plan has been framed keeping in view the geographical location of the district, essential features, analysis of the past five years crime along with wide ranging discussions, debates, seminars, interviews, consultations and meetings held with different sections of society. This plan adequately reflects the trends of crime and the needs and expectations of the community. Not only the measurable targets have been identified, key actions and mechanism to achieve these targets have also been mentioned under each head of crime. Notwithstanding the limitations, district police Chiniot is determined to strive to the utmost for realization of these targets so that qualitative and meaningful policing is provided to the people on whose behalf we undertook these onerous responsibilities. We plan to work in close cooperation with law abiding citizens and public representatives for establishment of rule of law as well as arrest of offenders. We substantially depend on public support by bringing about qualitative change in the attitude of the police particularly the staff posted at the police stations so that our fight against, both crime and the criminals is undertaken with necessary strength and support of the people. I am confident that my team will deliver in accordance with law & the expectations of the people as I have faith in my officers and subordinates for adequately meeting this challenge.
